## FIRE MAKES 500 HOMELESS IN NAHANT, MASS.

SEVERAL INJURED,  
DAMAGE \$400,000  
IN SEASIDE COLONY

Troops Aid Firemen From  
Other Cities to Fight  
Blaze

Nahant, Mass., June 11.—Five hundred men, women and children homeless, forty permanent houses and summer cottages destroyed, several injured and property amounting to at least \$400,000 ruined, was the toll taken by a disastrous fire which raged for more than four hours, sweeping the Bass Point section of the peninsula seaside town today.

Before the fire was under control firemen from Nahant, Lynn, Swampscott, Salem, Revere, Chelsea, Peabody, a fireboat from Boston and United States troops and coast-guardsmen battled the flames.

Fire brands swept up the coast toward "White Court" at Little's Point, Swampscott, summer white house of President Coolidge, but no damage was done there.

A strong wind, blowing from the northwest, carried the flames with lightning-like rapidity through the Bass Point section. A call was immediately sent to the Red Cross and Salvation Army and a detail was rushed to aid the stricken area. The telephone lines over the peninsula from Lynn to Nahant, went out of commission, except for a single line and thousands of automobiles clogged the Lynn Beach boulevard, hampering the work of out of town firemen in getting to the scene.

The arrival of a fire boat from Boston, which made fast at Fort Gardner and played five streams of high pressure in various points prevented what undoubtedly would have been extermination of the whole of this town.

Among the homes destroyed were those of Mrs. Matty Baldwin, widow of the pugilist and Eugene Bryan, proprietor of the relay house.

Many residents were slightly injured in fighting the flames.

## SHOOTING ACCIDENT ATHLETE SAYS NOW IN DEATH OF GIRL

Gun Explodes During Struggle  
Mills Says In First Coherent  
Story

Wellesley, Mass., June 11.—Sterling Mills, 18 year old Wellesley High School athlete, in Newton Hospital today, for the first time told a coherent story of how his 15 year old schoolgirl sweetheart, Priscilla Amidon, was shot to death in Glen Road woods Tuesday afternoon and how he received two bullet wounds.

In the presence of the district attorney, Winfield Wilbur of Norfolk County, State Detective Michael Fleming and others, Mills is understood to have said that "in a struggle the gun went off," causing his own injuries and the girl's death. The high school football star's statements are said by the authorities not to coincide with those given earlier by Mills.

Striding into the woods with the girl after school, Mills said Priscilla pleaded with him not to leave her when he said he was going to Natick to work on a farm. He said Priscilla drew a revolver and threatened to kill herself. He said he then grappled with Miss Amidon and the revolver was discharged.

## VIOLATIONS OF ANTI-NARCOTIC ACT ARE INCREASING HAYNES DECLARES IN REPORT

Washington, June 11.—Drug addicts in the United States number from 110,000 to 150,000, prohibition Commissioner Roy A. Haynes, declared in an official statement today.

Violations of the Harrison anti-narcotic act, the report showed, are increasing, 3,364 persons having been tried in 1922 and 4,337 from July 1, 1924 to June 1, 1925. Convictions rose from 93 per cent in 1922 to 95 per cent in 1925, according to Haynes.

Haynes, describing his four years as prohibition commissioner, said that the "big bootleg operator," is making his "last stand."

"Successful enforcement of the prohibition law is closing one source of illicit liquor after the other," Haynes said. Real whiskey, wine or brandy are now practically unobtainable for beverage use.

Moondrinking is less general. Home brewed beer has disappeared. Liquor smuggling has been reduced.

Strides in enforcement during the last four years are remarkable, considering the obstacles to be overcome in various localities there is still strong opposition. Local assistance

## JOSIAH KIRBY GOES ON TRIAL AGAIN ON CHARGE OF LARCENY

Former Discount Head Faces  
Second Case—Will Go To  
Delaware Saturday

Cleveland, O., June 11.—Josiah Kirby founder and former head of the Cleveland Discount Company goes on trial today before Judge Fred H. Wolf of Waukegan, on a charge of grand larceny.

Kirby a few months ago, was acquitted of other charges growing out of the failure of the big mortgage concern.

The case will be prosecuted by special assistants to the attorney general, who conducted a probe of the collapse of the concern three years ago.

On Saturday, Kirby and his attorneys and representatives of the state will go to Delaware where indictments were returned against him recently. It was considered doubtful when court convened this morning whether a jury would be secured this week, because of the great interest in the case.

The Cleveland Discount Company went into the hands of receivers after rumors had become general in financial circles that bad loans had impaired its assets. A special master appointed by Judge D. C. Weston, head of the federal district court found that the concern was not bankrupt.

## PRODUCES WASTEFUL TAXATION WINSTON STATES IN ADDRESS

Law Economically Unsound  
He Says—Advocates  
Revision

Washington, June 11.—Describing the revenue act of 1924 as discriminatory, productive of wasteful taxation and economically unsound, Under Secretary of the Treasury Garrard B. Winston today advocated complete revision of the nation's tax system.

Winston's observations and recommendations made in an address before the convention of the National Association of Credit men, were understood to have approval of his chief, Secretary of the Treasury Mellon.

"No system of taxation which forces business into tortuous and unnatural channels can continue as a permanent policy of this country," Winston said.

"We want a highway of taxation which makes it cheaper and quicker for the business man to go straight through to success, rather than take the long way around in the effort to avoid the government's toll of excessive taxes."

"We have become the greatest nation in the world only because we have given energy and ability free play; any system of taxation which discourages initiative and penalizes success cannot be the right policy for America."

Winston pleaded for repeal of federal inheritance tax. He said that the economically unsound basis of surtaxes is responsible for a vast loss to accumulated wealth.

Repeatedly congress has refused to reach the abuse of tax exempt securities, according to Winston.

"Today there are in existence over \$13,000,000,000 of tax exempt securities. Before a constitutional amendment could be made effective the amount would be over \$15,000,000,000," Winston said.

"It would take a long time to whittle down such a block of securities by their payment at maturity."

"Under our complicated dual government the means of tax avoidance available to the rich are so many that to try to close them all by statute would simply put business in a straight jacket and render it unable to move."

"We encourage, by our excessive income tax rates, unproductive investment of capital and discourage business. Under these rates industry cannot function normally; it is forced into wasteful channels. Excessive rates cost the taxpayer two dollars; the government gets one and the other is thrown away."

Winston said that it is not the total amount of taxation which is objectionable but the effect of unscientifically applied rates. An inventor, he pointed out, is not interested in risking his money and energy in a new enterprise, where if he wins the government appropriates half of his winnings and if he loses he stands the whole of the loss.

"If, however, we cut down these tax rates to a reasonable figure, the high differential of a tax exempt over a taxable investment is brought within proper limits and funds seek normal investment," Winston declared.

## WHEAT CROP WILL BE SHORTEST SINCE '17

Washington, June 11.—Although the wheat crop this year will be the shortest one since 1917 and will aggregate only about 661,000,000 bushels, it will be ample to meet domestic requirements, department of agriculture officials say. The smallness of the crop indicates there will be little or no wheat for export from this year's crop.

Reports to the department show that in a large proportion of the wheat belt, winter wheat has short straw and short heads. The harvest is considerably in evidence in parts of Illinois, Missouri, Nebraska and Kansas and Chinch bugs are doing some damage in Missouri.

Although cold weather has injured spring wheat somewhat, the reports are that no serious damage has been done. On the other hand, crop experts here say, weather condition and the heat wave have favored a sturdy growth and hardness of plant.

## PREDICT WARFARE OR EARLY RESUMPTION IN SOFT COAL FIELDS

Expect Climax In Ten Days—  
Miners May Return At  
Lower Wages

Athens, O., June 11.—Spurred on by the inability of merchants to extend further credit to striking miners, developments in the shut down of the soft coal industry in the Hocking and Pomeroy Bend fields are rapidly moving to a climax which will result either in bitter warfare or a very early general resumption of production. This climax is expected within the next ten days by persons in close touch with the situation.

The push which may send the great majority of miners still here back to work, very likely at lower wages than the schedules of the existing Jacksonville agreement, is the apparent rapid re-opening of mines in the Pomeroy field where the first insurgency in the ranks of the union miners developed a month ago.

A close check shows that nearly 70 per cent of the miners in that field are working. Miners admit that 500 of the 1,800 miners in the field are again working, some of them at the \$5 a day scale, and the remainder on the 60-40 co-operative basis.

It was to stop the spread of this dissatisfaction to the 10,000 ideal miners of the richer Hocking field that the demonstrations were staged here and at Pomeroy Wednesday, with John L. Lewis, union chief, Lee Hall, Columbus, district president and local union leaders exhorting the men to stand firm. A general reduction in wages throughout the soft coal industry was declared certain if a break develops here.

There have been no breaks in the ranks of miners in the Hocking field as yet, but some development is certain, it is believed here as merchants, their books filled with tens of thousands of dollars of accounts, have shut down credit and hung out the "red" sign. Some merchants said they cannot see their way as many miners would require the savings of several years to pay up the accounts, which have been piling up while they were idle.

Other merchants are reported to have as high as \$50,000 in miners accounts on their books.

Business men who were scathingly flayed by local mine leaders at the meeting Wednesday for alleged interference as third parties in the strike, said today that their attitude had been misunderstood. They said they do not advocate reduction in wages, but are simply seeking some way in which work may be resumed in the field and prosperity restored.

## "PUSSYFOOT" HAS NEW PHILOSOPHY

Kansas City, Mo., June 11.—A reformed William E. "Pussyfoot" Johnson, bringing with him new tenets of individualism, drifted into Kansas City, today and deposed to giving newspaper men that a man has as much right to drink liquor as he has to eat food which might be distasteful to others.

Johnson declared that, after all 15 years of battling for this and that, he had decided that men and women will, after all is said and done, do about as they please and he admitted that this was as it should be.

"Let them do it," he said, magnanimously. "They are living their own lives, not mine."

## KNIGHT SCORES RAVAGES OF OFFICIALS ON RIGHTS OF CITIZENS IN ADDRESS

DECLARES COUNTRY  
DEBAUCHED BY FALSE  
GOVERNMENT POWERS

Cites Ohio Bible Bill And  
Anti-Evolution Act As  
Examples

Springfield, O., June 11. Declaring that officialdom has debauched the country into false ideas of governmental powers, former Congressman Charles L. Knight, Akron, and Springfield newspaper publisher, addressing the graduating class at Wittenberg college here today, urged his hearers to dedicate their lives to correcting false standards of life.

Asserting that "there appears to be no limit to, or remedy for, the average of officialdom upon the natural rights of the citizen," Knight directed attention to the recent enactments by the Ohio legislature of the bill voted by Governor Donahy, providing for Bible reading in public schools and by the Tennessee legislature prohibiting the teaching of evolution in the public schools of that state.

"Professing a wisdom and virtue that it never had, officialdom no longer hesitates to array itself in the ermine and stand forth as the court of last resort on all questions of learning, good taste and sound morals," said Knight. "In fact, this country is about to witness a trial which, I believe, is without a parallel since Bruno was burned at the stake for his irregularities about astronomy. In other words great scientists are about to be called from the tobacco fields and the blacksmith shops, the garages and the cigar stores of east Tennessee empaneled as a jury to decide the truth or falsity of evolution."

"After that decision, Darwin, Haeckle, Tyndall and Huxley will all have lived in vain and the author of the law and the chief counsel for the carpenter theory of the universe are to seek the senate where, presumably, they hope to refute the aspirations which, they seem to think, have been cast upon their own origin."

"After this, we need not despair that, some day, we may elect an eminent scientist governor of Ohio who has discovered and has been sustained by the verdict of a jury, in the pleasing theory founded upon the scriptures that the world has four corners and is perfectly flat."

"Such a consummation may not be very far away, if we may take as significant the great comic politico religious controversy which recently arose in our general assembly and which was designed to secure the inalienable right that we have always had to read the Bible in every school that desires it. Other symptoms, too, are not wanting that officialdom has just started upon its conquering career of injecting our systems full of the Divine grace of religious and moral reform through the legislative syringe."

"Indeed the great idea possesses so many advantages to officialdom of accrued power and increased papsuckers that it is inconceivable the thing will stop until it becomes so burdensome that thoughtful people will be at last compelled either to end it or, else, become the helpless wards of the state."

Knight warned against accumulation of wealth for the sole purpose of possession. He said amassing of material wealth is a worthy ambition only when it enables the possessor to aid and promote those persons, or agencies, striving to create a more enlightened citizenship "that shall recognize its duties and responsibilities to the world."

## UNIONS OBJECT

Berlin, June 11.—Socialist trade unions at Essen, one of Germany's chief industrial cities, today urged the central committee of the unions to enter a protest with the allies against the disarmament note, especially against the destruction of machinery which would, the unions declared, cause additional unemployment and misery.

### SEARCH FOR HEIRS

Bucyrus, June 11.—Three years are given Albert G. Stoltz, executive of the estate of Elizabeth P. Morfoot, 92, who died here recently, to find twelve of the unknown legatees of the estate. Otherwise, the share of each person not found will revert to the Monnette Memorial Hospital fund here.

## MOORS FIRE ON NON COMBATANTS FROM AMBUSH, LEARNED

London, June 11.—Moorish troops in the Spanish service fired on non-combatants after establishing an ambush three miles inside the international zone near Tangier Wednesday, a delayed dispatch to the Times said today.

Sixty non-combatants were captured and five wounded women and one man were left in a river bed where the troops had been in hiding.

The Moorish troops, 2,200 in number, had been guarding the frontier. They concealed themselves in the river bed and natives who saw them hurriedly sent their wives and relatives, flocks and herds to a place of safety.

Early Wednesday a caravan of a few native men and the rest women, arrived inside the international zone, enroute to Tangiers to purchase food. When they reached the river bed, the Moors opened fire.

## HOLDS CONFERENCE

Berlin, June 11.—Nicholas Longworth, U. S. congressional leader, who has been in Berlin several days, held a long conference today with Foreign Minister Stresemann on a subject which was not made public. Longworth next will visit Paris.

## RETAIL FOOD COST CONTINUES TO MOUNT; INCREASE SINCE 1913 IS 38 TO 59 PER CENT

Washington, June 11.—The retail cost of food continues to increase in most parts of the United States, according to the department of Labor.

In twenty representative cities the upward trend ranged from three to thirteen percent during the year ending May 5.

Salt Lake City had the biggest percentage of increase.

The percentage increase in other cities included in the report was:

Houston, two percent; Memphis and Mobile, nine percent; Atlanta, Cleveland, Minneapolis, and Washington 8 percent; Charleston, S. C., Denver and Los Angeles 7 percent; Cincinnati, Columbus, Ohio and Springfield, Illinois, six percent; Fall River, Mass., Indianapolis and New York 5 percent; Manchester and Providence, 4 percent and New Haven, Conn., three percent.

During the month ending May 5 fifteen of the twenty cities showed increases as follows:

Salt Lake City, three per cent.

## PRESENT POLICY OF REPUDIATION WILL BRING RUIN HE SAYS

Yellow Springs Senator  
Airs Foreign Views  
at Minneapolis

Minneapolis, Minn., June 11.—Leading a new assault upon France for failing to pay her war debt to the United States, Senator Simeon D. Fess, Republican of Ohio, in an address here today warned the French people that their nation faces economic ruin unless the policy of "debt repudiation" is abandoned at once.

Failure of France to settle her debts, Fess declared, is the chief obstacle to the permanent rehabilitation of Europe. A continuation will destroy French credit he added, and make that nation an outcast throughout the world.

The election of General Hindenburg as president of Germany, Fess said, was an additional source of world economic unrest. This can be remedied, he added, through a statement from Hindenburg that he will oppose restoration of a German monarchy.

As Fess has been one of the administration's strongest leaders in Congress and came here direct from Washington, his speech was believed to reflect the foreign views of the Coolidge administration. It was considered significant, too, that Fess included in his address a declaration that under the leadership of President Coolidge we may have another conference to do for armies what was done by the Washington conference for the navies.

He also declared in favor of ratification of the world court protocol.

On the question of the French debt, Fess said in effect that France must pay up or remain a "dishonored nation."

"The franc can only be restored," he said, "by France entering upon a sound policy of taxation as a basis for liquidation and an open and frank declaration to be immediately followed by definite steps to restore her credit, both nationally and internationally, by funding her obligations to America."

So long as she continued, a policy of uncertainty, as to her intentions, touching their most solemn obligations and so long as by her attitude she gives color to the unofficial and semi-official utterances that American loans never will be paid, just so long will she suffer a discredited and dishonored nation, whose former high standing among the nations of the earth cannot be restored.

Fess called attention to France's recent loans to Poland, Czechoslovakia and other nations as indicating her ability to pay. At the same time, he declared, the United States is staggering under heavier burdens of taxation than France simply because of the war loans. He also condemned France's militaristic policy of maintaining an army of 700,000 men, five times larger than the American army.

"As certain as night follows day," he warned, "France will cease as an economic force in the world unless she changes this policy."

The German outlook, Fess added, is promising but President Hindenburg must set at rest the uncertainty over his possible monarchist aims. "As it now appears, the new president will confirm, what many believe, that he represents conservatism as against radicalism and not a monarchy as against a republic," Fess said.

"If he does this, his election may prove not only wise for Germany but an advantage to the people of the world."

RESERVES AND TROY REDMEN TO TANGLE FOR SECOND TIME

The Reserves will attempt to even things up Sunday afternoon at Washington Park with the Troy Redmen which team they lost to last Sunday by a 2 to 1 count.

The locals have lost their last three games because of poor fielding. The opposition has scored seventeen runs and but four of these have been earned. This tells the tale why they are on the losing end. They are fielding .523 at present and hitting .229. In their last three games they have been outfielded by a wide margin.

The locals weakened themselves not a little when they let Willie McDonnell, pitcher, go. It was reported that he was a bit too high but one pitcher on a ball team is not enough as the locals will find out at some later date. In the event Cyphers has a sore arm or gets injured, who is going to pitch? Friend, catcher, was also cut loose and "Tad" Randall will no doubt take his place. Randall caught last season and is a mighty good receiver. He led the Reserves last season in hitting and there is no reason why he can not do it this campaign.

The Redmen possess a nifty nine and lived up to all advance notices about them. They have a nice infield in Kessler, first baseman, Davis, at second, Valentine at short and Schaffer at third. Valentine started last week, making some nice stops and throws. He accepted thirteen chances and erred twice. They will present the same team they did last week and fans can again look for a warm argument.

SPORTSMEN TO HOLD OUTING AT VANDALIA

A delegation of Greene County sportsmen will probably attend the annual outing and dinner of the Montgomery County Fish and Game Protective Club which will be held at the Amateur Trapshooting Association grounds at Vandalia, near Dayton, Friday, June 26. Vandalia is located at the junction of the Dixie Highway and National Road.

Contests and games are included on the program of events during the day. Quail, horseshoe and other contests will be staged. The trapshooting events will begin at 9 o'clock in the morning, daylight savings time.

COUNTRY CLUB TO PLAY MIDDLETOWN

The Xenia Country Club will play its first inter-city club match of 1925 over the local course with the Middletown Golf Club next Wednesday afternoon. It was announced Thursday by Chalmers Murphy, chairman of the tournament committee.

So far this season, the local club has devoted its activities to matches in the Dayton District Golf Association League, of which it is a member.

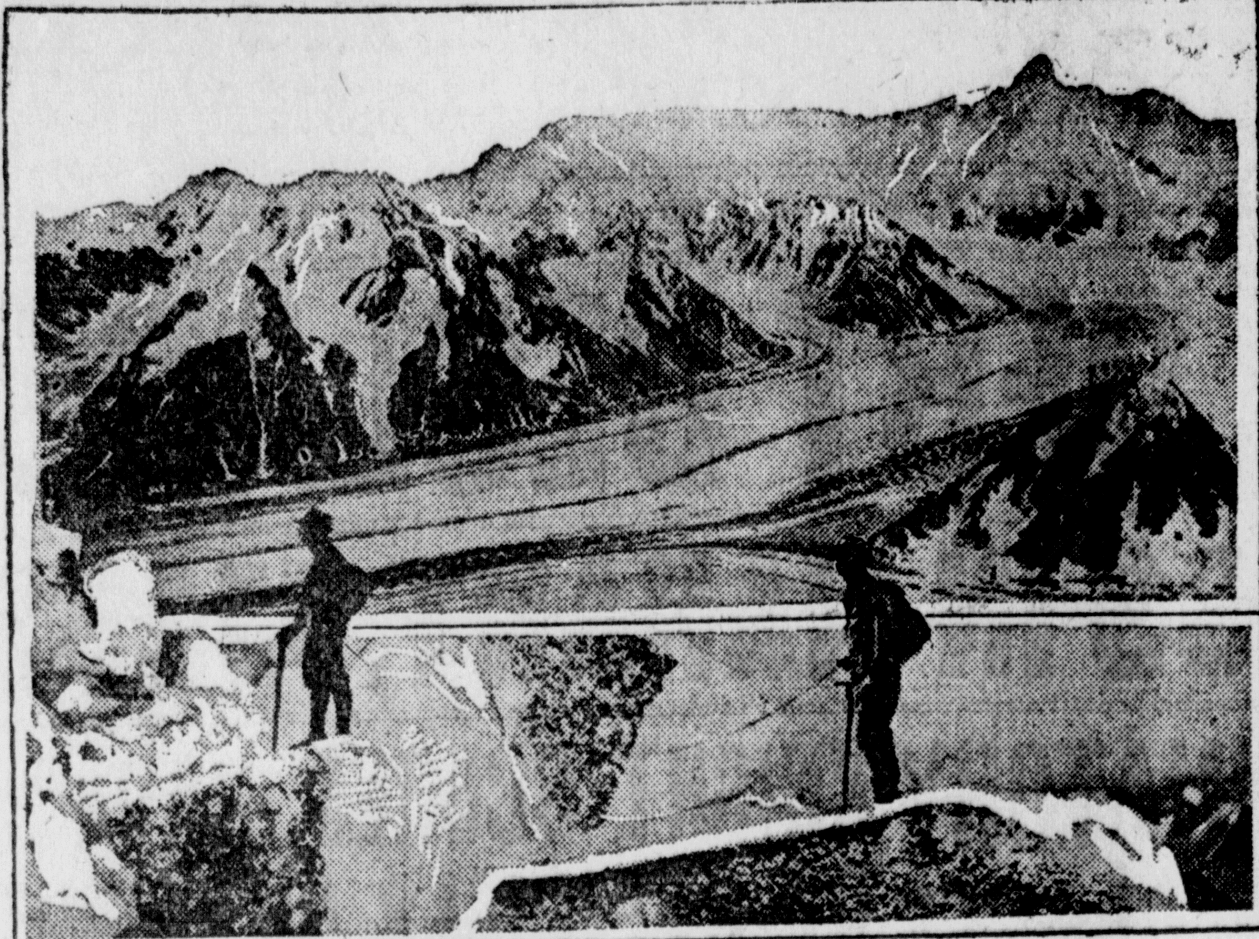

Twenty-five players will come to Xenia to meet a like number of local representatives. Eighteen holes of golf will be played, Nassau count. The match is scheduled to start at 1:30 o'clock when the first foursome will tee off.

Xenia played Middletown last year and a close match resulted. Dinner will be served the visiting and local golfers following the match at the club house.

Americans Seek to Conquer Canada's Highest Peak

Allan Carpe, son of Mrs. M. K. Carpe, East Second Street, this city, is one of eleven amateur climbers, five of whom are Americans, who are attempting to climb Mount Logan, Canada's tallest peak, yet unascended. The party went to Alaska a few weeks ago, thence down the Yukon and began the treacherous climb. A. H. MacCarty, leader of the party, from Summit, N. J., is seen (rear) reconnoitering on the mountain with H. F. Lambert, of the Canadian Geodetic Survey, in preparation for the advance. The other photo affords a general view of the mountain, 19,550 feet high.

Rogers Hornsby, captain and manager of the St. Louis Cards is leading the National League in hitting with a .411 average while Barnhart of the Pirates is second with a .393 average. Stock, Brooklyn, Bancroft of the Braves and Hawks of the Phillies are hitting over the .375 mark. Ty Cobb, manager of the Detroit Tigers is at the top of the American League with a .421 average while Wingo, left fielder on the Tiger nine, is tied with Cobb. Harry Heilmann, another Tiger outfielder, is third with a .411 average.

Paul Berlenbach who won the light-heavyweight championship from Mike McTigue stands a good chance of losing the championship just as soon as he crawls in the ring with Jack Delaney. Delaney is the lad who flattened "Punch Em Paul" after Paul had piled up a long string of consecutive knockouts. Delaney is a dangerous puncher and a crafty man inside the ropes. He packs an awful kick in his right.

With Rube Benton on the mound the Cincinnati Reds defeated Philadelphia making it three straight from the Phillies while the win was their sixth consecutive victory. If the Hendricks herd only had another regular hurler they would no doubt be strong pennant contenders. Rixey, Louth and Donohue have been doing most of the pitching for the Queen City tribe. Brady, Biemiller, May and Carl Mays are on the staff but are not reliable, so it seems. Mays, submarine ball tosser, has not worked a game this year. Rixey is leading pitcher with seven wins and four defeats. He has granted 101 hits in the eleven games he has worked while he has issued an average of two walks per game and fanned about three per game. Luque is second with seven wins and five defeats while Donohue is third. Hendricks has his scouts out looking for a good slaban and in the event one can be found then not much can be expected from them as three pitchers can hardly hurl a team to a pennant.

The R. A. Kelly Company baseball team is still leading the Saturday Afternoon League with five games won and one lost. The H. and A. is second with four won and two lost while the Pennsylvania is third with two won and four lost and Tilton's holds down the bottom rung with one victory and five defeats. Saturday afternoon the Kelly bunch will meet its nearest rivals for the top rung at Washington Park. The last time these two met the Cincinnati Avenue bunch nosed the present leaders out by a 5 to 4 count in a hot battle. The second placers have a chance to go into a tie for first by winning Saturday's battle and with the report that Dickie Wells will hurl for the H. and A. they will no doubt repeat. Tilton's will meet the railroaders Friday afternoon. Which ever team wins will not change the standing a bit. Tilton's has hardly a chance to win the pennant or cup but in the event they do upset the dope they may finish second, but this is not probable.

"Jap" Ritter, second baseman for the Kelly's in the Saturday afternoon loop, is leading the league with an average of .632. In the six games he has played he failed to hit but once and this was against Hod Smith. Ritter is fielding well having handled twenty-three chances without a slip which gives him an average of 1.000. Briggs, first baseman for the H. and A. is leading in fielding with a .972 average. "Piny" Owens is second with .933 while Cain is third and Merchant fourth. Merchant is the best hitter of those mentioned above while Briggs is probably the weakest as he has played in six games and got but two bingles an average of a hit to every three games.

FOGWELL TROTTER WINS AT FINDLAY

Helen Marque, by The Marque, owned by Ed Fogwell, Osborn trainer, easily won the 2:19 trot at the Findlay, O., meet Wednesday afternoon in straight heats. The 2:19 event was the last on the day's racing card, and Helen Marque took the race, one, two, three over the Steller, the favorite, and a field of eleven trotters.

The winner's time for the three heats was 2:34 1-4; 2:31 1-4; 2:30 1-2. A purse of \$600 went to the winner.

Fogwell's star pacer All Bingen, made an excellent showing in the 2:14 pace finishing second in a field of seven to speck Erskine's Archibald. All Bingen placed second in the first two heats but fell to fourth place in the final heat.

LEAGUE GAME WILL BE PLAYED FRIDAY

Due to the inability of a number of players of both teams to be present Saturday, the regular day, the scheduled game between the Tilton's "33" team and the Pennsylvania Railroad in the Saturday Afternoon Industrial League, will be played Friday night at 6 o'clock at Washington Park, instead of Saturday.

The second game between the Hooven and Allison team and the leading R. A. Kelly nine will probably be played Saturday afternoon as scheduled, it is said.

The game Saturday between the Kellys and the second place H. and A. nine should be a hummer. But one full game separates the league leaders from the second placers and a win for the latter team would result in a tie for first place.

FINED ON CHARGE

Ollie Williams, colored, Cedarville, was fined \$15 and costs and sentenced to spend twenty days in the County Jail on a charge of operating an auto while intoxicated by Judge S. C. GOLF MATCH WILL BE PLAYED SATURDAY

Because of the inability to stage the game Wednesday afternoon, the scheduled Dayton District Golf Association League match between the Bellefontaine Golf Club and the Xenia Country Club will be played Saturday afternoon over the local course.

It is understood that the visitors have been going good in the league this season and their representatives will make opponents, worthy of Xenia's best golfers.

The four golfers who will represent Xenia in the Bellefontaine match have not yet been selected but will be announced later.

### HUSTON-ARMISTEAD NUPTIALS SOLEMNIZED

Miss Velma Huston, elder daughter of Mr. and Mrs. Ray Huston, became the bride of Mr. G. Donald Armistead, Oxford, O., in a beautiful mid-summer ceremony at the Huston home, West Third Street, Wednesday afternoon at 2 o'clock.

The service was witnessed by thirty five relatives and close friends of the couple. The Huston home was decorated in a color scheme of yellow and white, roses and Shasta daisies being combined with other bloom and greenery. An improvised altar was arranged in the living room, with palms and ferns. Tall standards of Shasta daisies were placed on either side of the altar. Strands of smilax woven over the altar and throughout the rooms completed the decorations.

Miss Florence King of Sidney, O., sang, "At Dawning," before the ceremony and Miss Irene Parrett played violin solos. The wedding march was played by Miss Gladys Shadrach.

The beginning of the ceremony was marked by the entrance of little Miss Elizabeth Huston, sister of the bride, as ring bearer. Dressed in a dainty white frock, she carried the rings in Calla lilies placed in a small basket.

Miss Helen Evans, a close friend of the bride, was maid of honor. She wore a frock of flowered georgette, with a small tan hat with purple roses as trimming. Her flowers were yellow roses.

The bride entered with her father, who gave her in marriage. Her beauty was heightened by her bridal outfit, the dress of which was made along slim, silhouette lines. The bodice was fashioned of white crepe back satin and the skirt was banded in godet pleats in georgette, combined with white lace. Her veil of tulle was caught up-fashion with orange blossoms and fell to the floor, forming a short train. She carried a shower bouquet of bride's roses and valley lilies, made in two parts, one of which she presented to her mother and the other to the bridegroom's mother.

The procession was met at the altar by the bridegroom and his groomsmen, Mr. Joseph Murphy, of Oxford, O., located at Niles, and the officiating minister, the Rev. F. W. Stanton, pastor of the First Methodist Episcopal Church. The double ring ceremony was solemnized.

The service was followed by the felicitations of the guests and the serving of refreshments. Ices, cakes, and ice tea were served. A large wedding cake was placed on a table with yellow candles in crystal holders and tied with white tulle and white flowers, on either side.

Mr. and Mrs. Armistead left Wednesday afternoon for their honeymoon trip, their destination being unknown. Mrs. Armistead was away a frock of crepe, polka-dotted and trimmed in tan lace, with a small tan hat, poke shaped, blond kid slippers, gloves, purse and other accessories to match.

The couple will spend the summer in Toledo. Mrs. Armistead attended Miami University, Oxford, after graduating from Central High School, this city, and it was at the college that the romance began. Mr. Armistead graduated from Miami last year, and is a member of Delta Tau Delta Fraternity. His bride is a member of Alpha Sigma Alpha Sorority. Mr. Armistead was supervisor of music in the New Philadelphia High School last year.

Out-of-town guests at the wedding included Mrs. Elizabeth Armistead, Oxford, mother of the bridegroom; Miss Ruth Neff, Camden, O.; Miss Cleo Sutton, Jamestown, Mr. and Mrs. Walcott, Mansfield, O.; Miss Olive Huston, J. Jones, Oxford, O.; Miss Lucille Dayton; Miss Florence King, Sidney, O.; Mr. Leo Huston, Jamestown; Mr. Joseph Murphy, Niles, O.; Mr. John Sutton, Waterbury Resort; Mr. Edwin Reutinger, Columbus, Ill.; Mr. Edwin Towle, Harrisburg, Ill.; Mr. Sam Watkins, New Philadelphia, O.

### DELTA THETA TAU ELECTS OFFICERS

Miss Frances Johnston was re-elected president of Alpha Theta Chapter, Delta Theta Tau Sorority, at the annual election, held at the home of Mrs. Russell Halstead, South Chestnut Street, Monday evening.

Other officers elected are: vice president, Miss Lucille Beatty; secretary, Miss Gladys Shadrach; treasurer, Miss Dorothy Johnston; sergeant at arms, Miss Ruth Smith; historian, Miss Erma Johnston; press correspondent, Miss Olivia Cost.

Miss Lena Bales and Miss Betty Reutinger are making arrangements to attend the convention at South Bend, Ind., the middle of June.

Mrs. Halstead, assisted by Miss Dorothy Hickman, served a refreshment course after the business meeting.

There are now twenty-three active members in the local chapter and four associate members. The charity work of the organization the past year has included the donation of twenty-five dollars to the Lorain Relief fund; four large baskets at Thanksgiving and four at Christmas, filled with toys and food; food and fuel supplies for a blind woman; clothing for a needy girl and twenty-five dollars to the Xenia Recreation Association.

### LUNCHEON BRIDGE AT KELLY HOME

A gracious favor to Mrs. Sarah Harbino, of Tucson, Ariz., who is visiting her daughter, Mrs. W. D. Cherry, Mrs. George R. Kelly entertained sixteen women at luncheon and bridge at her home on West Second Street, Tuesday.

Bouquets of golden-hued coreopsis were used through the rooms of the Kelly home. After the luncheon course, bridge was the entertaining feature of the remainder of the afternoon. Mrs. Charles L. Darlington, Sr., won the card prize and Mrs. Harbino was presented a guest prize.

Miss Elizabeth Lauman of Peconic Springs, Va., was another out-of-town guest.

### FRIENDS ARRANGE BIRTHDAY SURPRISE

Thirty-three neighbors of Mrs. Evelyn Pendell, Lynn Street, arranged a surprise at her home, Wednesday evening, honoring her fifty-ninth birthday. A birthday cake was cut and the evening spent in jolly social intercourse.

Mrs. Stanley Haines and baby son were removed to their home on South Detroit Street, from the Espey Hospital, Wednesday.

Mrs. J. A. Chew, East Market Street, is in Wellesley, Mass., attending the commencement exercises at Dana Hall School, when her daughter, Miss Florence B. Chew graduated.

Miss Catherine Hollenamp, this city, will attend the card party to be held Friday afternoon at the Old Barn Club, Dayton, by members of the Beta Theta Pi Sorority of Miami University.

Miss Jane Hayward, West Second Street, has returned from a visit of several days with Miss Sarah Diboll in Wilmington.

All wishing to attend the luncheon next Monday, for women of the Country Club, are asked to make their reservations not later than Friday evening with any member of the following committee: Miss Florence Steele, Mr. R. D. Adair, Mrs. Lawrence Shields, Mrs. Chester Hinkle, Mrs. Edwin Woodward and Mrs. Charles Adair.

Mr. and Mrs. Ola Wolary, Walnut Street, are announcing the birth of a twelve pound son, Wednesday morning. The baby has been named James Robert. Mrs. Wolary was before marriage, Miss Idris Slagle.

Miss Margaret Coblenz of the Upper Bellbrook Pike, spent the week end visiting in Springfield and Columbus.

Word was received by relatives Tuesday that Mrs. O. T. Coblenz, Birch Road, underwent an operation for goitre at the Grant Hospital, Columbus.

## PILGRIMS TO ROME GATHER IN XENIA

More than seventy residents of the Miami Valley and Cincinnati assembled at the Pennsylvania Railroad depot in Xenia late Wednesday afternoon, where a special train was made up and left for New York where they will sail Saturday on the steamship Leviathan on a pilgrimage to Rome and a tour through Ireland, France, England, Holland, Belgium, Germany and Italy. In all, 150 residents will make the trip.

Members of the Dayton party arrived at Xenia Wednesday afternoon on two special cars where they met Cincinnati tourists and others from the valley. Four special coaches cared for the Cincinnati tourists. The train for New York was composed of six special coaches.

The pilgrimage to Rome approved by the late Rt. Rev. Henry Moeller, archbishop of Cincinnati, is being made during Holy Year, giving pilgrims an opportunity to participate in the celebration granted with a visit to the holy city during this year. Holy Year comes once every quarter of a century.

The trip is being sponsored by

the travel department of the City National Bank of Dayton and will last two months. A second pilgrimage will be sent July 4.

## MARIAN OSTER DIES AT YELLOW SPRINGS FROM BRIEF ILLNESS

Coming as a shock to relatives and friends, the death of Miss Marian Oster, 34, daughter of Mr. and Mrs. J. A. Oster, Walnut Street, Yellow Springs, occurred Wednesday afternoon at 1:10 o'clock.

Death was the result of peritonitis, and followed a short illness.

Miss Oster had resigned a clerical position in Springfield, recently, to accept the position of secretary to the vice president and bursar of University of Dayton, at Dayton, Ill., which prevented her taking the place the first June, and the office was left open for her recovery.

Miss Oster taught in the Yellow Springs High School for four years. She was well known in Yellow Springs and community. Her sister Miss Helen Oster and a cousin Miss Lena Oster also of Yellow Springs left Monday on the Delaham excursion but were notified of Miss Oster's condition at Chicago. They returned home Thursday morning.

Miss Oster is survived by her parents Mr. and Mrs. J. A. Oster, two sisters, Miss Helen Oster and Miss Mildred Oster, and two brothers, Walter Oster, all at home and Kenneth Oster, who lives in Yellow Springs. She was a member of St. Paul's Catholic Church.

Solemn high mass will be solemnized Saturday morning at 9 o'clock at St. Paul's Church, with interment in St. Paul's Cemetery.

## FRED KELLY TO TALK AT ALUMNI MEETING

Between 250 and 300 alumni of Central High School are expected to

attend the annual reunion at the school, Tuesday evening, June 16. Tickets were placed on sale Wednesday for the dinner and dance, and can be obtained at Adair's Furniture Store, North Detroit Street.

Plans for the evening's program are now in shape and many good treats are in store for the alumni. The main feature of the event will be a talk by Fred C. Kelly, graduate of "old Central" and now famous author and humorist. Music features and other talks will embellish the program.

## MODISH MITZI—Some "Extras" For The Trousseau

By JAY V. JAY

Marian has confided to Mitzi that her trousseau is all ready. Everything—except a few last minute purchases. A hat, for instance, some sort of a hat that can be worn on the steamer and thrown in her suitcase without damage. So they are shopping—and find that a soft velvet with stichery is smart.

"Of course," says Mitzi, "it doesn't have to be velvet. A crushable satin like this one would be just as suitable for your ensemble suit." This hat is trimmed with gold stichery. It can be flattened out like a pancake without losing one line of smartness.

Now here is quite another sort of hat with a stock to match. It is of printed silk. It is very gay and would be most suitable with a sports suit. The colors are bright and the design is the modern ziggy type.

Contrasting colors joined together with stiching in rows and squares make this hat smart. "This is all, these four hats," Marian tells Mitzi, "positively all that I need to complete my trousseau." Mitzi is sure that it is, unless she sees something on the way out of the shop that especially recommends itself.

## TIME TO "RE-TIRE"

IT WAS in 1876 that Sir Henry Wickham germinated in Kew Gardens, London the seeds of the Hevea brasiliensis, otherwise known as Para rubber, and sent the plants to the British East Indies where they became the nursery stock of the plantation rubber trees. In 1905 those plantations produced 174 tons of rubber, while the wild rubber areas, principally those of Brazil, produced 59,000 tons.

It was about that time the automobile began to give promise of being a great factor in our economic life, and in 20 years this country was operating 18,000,000 self-propelling, rubber-shod cars. But with a lack of foresight amounting to fatuousness we made no provision for a rubber supply, and by 1924 plantation rubber had reached a production of 387,000 tons, while wild rubber had fallen to 28,000 tons.

Today the British are having their innings. Crude rubber is ranging from 60 to 70 cents a pound, New York, compared with 20 cents just a year ago, and from teething rings to tires every American user of rubber must pay tribute to British canniness, the aggregate for the ensuing year being estimated at about \$400,000,000. In short, Britain has maneuvered us into a position where out of our own pockets comes the payment of the British debt to the United States. Yankee shrewdness has had a bad fall.

The situation calls for herculean effort on our part. Within the next decade rubber may supplant oil as the star in the commercial drama which records the struggle between Great Britain and the United States for the control of the world's natural resources, a struggle which will continue so long as competition is the motivating power of human progress.

Discussing the Brazilian rubber problem in his excellent work, "Our Competitors and Markets," Lahee says:

"Brazil, for her part, cannot afford to lose the advantage of this wonderful potential resource, especially as she has the largest consuming market of the world as a neighbor. And for us, such an opportunity is of greatest interest, since by assisting Brazil to recover her position, we should gain the advantage of having, for the supply of a material upon which we are becoming increasingly dependent, a source unhampered by any sort of control exercised by our European competitors."

Brazil is our main hope in supplying us with rubber, but to realize it will require a huge capital enterprise. Isn't it about time to re-tire?

## CREDIT FOR THE WRIGHTS

NO ONE who has brought a great invention to perfection has escaped the challenge of those who have claimed that they had made plans which would have effected the same purpose. After all, while the pioneers in any field of invention are entitled to credit, it is the man who places the perfected product at the service of humanity who is entitled to the laurel wreath.

The Smithsonian Institution has offended Orville Wright by exhibiting at Washington the plane devised by Dr. Langley, late director of the Institution, with a placard stating that Langley's was the first machine capable of flight. Since flying has become a practical science, the Langley machine was shown to be capable of flight. The fact remains, however, that it did not fly, and it was a number of years before the Wright brothers conducted their successful experiments at Kittyhawk, N. C.

Dr. Langley is entitled to the credit involved in advancing the science of aeronautics. He is not, however, the man who made an airplane fly, and there must have been some reason for this involved in the mechanism of the machine or the capacity of the inventor to make practical use of what he had developed. The effort on the part of an American institution devoted to science to discredit or minimize the work of the Ohio youths who made the airplane a going proposition, is an unworthy one.

Those who contribute to the advancement of science and the progress of the world, as the Wright brothers did, should receive the full measure of the honor due them, and first to pay that honor should be the public scientific institutions of the country. The controversy which has arisen as the result of the apparent effort of the authorities of the Smithsonian Institution to detract from the credit due two great Americans is an unfortunate one.

## DECLARING AN ULTIMATUM

I'm willing to do anything which duty may command. I'm no shirker, as a worker, at my post I'll gladly stand. With a chuckle I will buckle to my tasks, though grim they are, But I will not sell the tickets to your annual bazaar!

I will build your booths and boxes. I'll run errands if you choose. Be your snifter or your butter pay your losses if you lose. Meet the people, paint the steeple, there's no dismal task I bar. But I will not sell the tickets to your annual bazaar!

If a gift you want I'll give it, 'Tis a cause which I admire. I adore you and I'm for you. I'll do all that you require, Chairs I'll rustle, and I'll hustle after strangers in my car,

But I will not peddle tickets to your annual bazaar.

I'm willing to do anything which duty may command. But the "no sir" of the grocer is a thing I couldn't stand. I feel funny, asking money from my friends for things like that. I am not a ticket salesman! Now I've told it to you flat!

This is the hour of the neckscarf. We see them embroidered, dyed in mixed colors, and painted.

To paint one at home it is not necessary to have any previous knowledge of painting. Simply buy two yards of China silk 36 inches wide and have it hemstitched down the middle and at either edge and along the bottom at either end. Cut this hemstitching down the middle, to make a picot edging all around. The picot edging is particularly popular just now, although hand hemming may be used instead, if desired.

Of course the two yards of goods, divided in exact halves lengthwise, will make two scarfs. Buy a transfer pattern and put it on with a hot iron.

The next step is to assemble the painting materials. If you have no regular artists' palette, use a large

plate—either glass or china. Buy artists' oil paints in tubes, of the desired colors. These colors may be made a lighter tint by being mixed with a little white oil paint. But instead of using an oil-paint brush, use a water color paintbrush which has a finer point. Pour a little gasoline into a cup and begin the work; for

## RESULTS THAT LAST

Proven by Xenia People.

Thousands of kidney sufferers have tried remedy after remedy with only temporary benefit. That's mighty discouraging! But one remedy has earned a reputation for lasting results and there's plenty of proof right here in Xenia.

Read the experience of one who used Doan's Pills years ago and now makes her endorsement even stronger.

Mrs. David Pohl, 751 W. Second St., Xenia, says: "I suffered with lame back quite frequently, but the most annoying symptom was the irregularity of my kidneys. I felt languid and it seemed I couldn't get any rest. Doan's Pills from Donges' Drug Store cured me entirely."

**OVER FOUR YEARS LATER,** Mrs. Pohl said: "I have had no further occasion to use Doan's since they cured me."

## Today's Talks

## ANTICIPATION

The aimless life is, of course, the headless life—that is, no life at all. Things that we anticipate nearly always thrill us and lift us right out of our lethargy.

We should always be planning something ahead. And we should always be planning something that may take place of worn out jobs and occupations.

Worries will come. Troubles will pile up until they look like a small mountain. But if you have learned to anticipate these things and to have an antidote ready, you will pass forward and grow happier as you do it.

And then there are the happy things to look forward to. There are always happy things ahead. I find myself looking forward to the new seasons of the year for each one is full of interest and beauty. And then I look forward to the reading of new books purchased in a mood of delight. I look forward to the meeting of those with whom I love to be.

What would life be without this

## anticipation.

I read a most interesting book the other day by an author I was unacquainted with until a friend told me about him. Now I anticipate the reading of another book by the same writer.

But in all our anticipations we should store within our hearts much that will serve to keep and hold us when the darker and less interesting days may appear.

It is all very well to live for the moment. But all moments pass and out of the change that new conditions bring about, we have need to retire unto ourselves many times and to gain renewed strength from the things which we have treasured in days gone by.

If we have lived merely to give and not to save, there will come a time when we need to call upon our reserves—and there will be none!

I believe that one of the most valuable lessons of life is to learn to live alone. Anticipate change.

## HUNDREDS ATTEND FORMAL OPENING OF NEW SWIMMING POOL

Braving cool atmosphere, hundreds of swimmers and spectators attended the formal opening of the new Wilson swimming pool, West Church Street, Wednesday evening.

The pool the third largest in the state was filled with swimmers and lovers of water sports. The walk around the pool and the enclosure for spectators were filled with people who came to watch the sports and attend the program in connection with the opening.

Ben Piers, former city recreation director of Dayton, who resided in Xenia several years ago and who was scheduled for an address, was unable to be present. The Rev. W. H. Tifford, pastor of the First Presbyterian Church, complimented members of The Aquatic Company and urged citizens to back the movement to keep the pool as a clean sporting place.

John W. Prugh, realtor, represented Xenia business men in a short talk. He recalled the days when Xenia boys were forced to learn to swim in a muddy pool, without the modern conveniences. He also complimented the city on possession of the fine pool.

Six expert swimmers from Dayton, representing different organizations of that city, and sent to the opening through the courtesy of Mr. Piers, gave a demonstration of swimming and diving. The exhibition was well received by the crowd.

Music during the evening was furnished by the Jones Orchestra of Xenia. Following the program the pool was given over to the local people.

## ROTARIANS TO AID PARK ASSOCIATION

Xenia Rotarians will assist the Xenia Recreation Association in a financial drive to be staged soon, to obtain funds to carry on the work in the new civic park it was decided at a meeting of the Rotary Club, at the park, Tuesday evening.

It is planned to raise about \$1,500, in addition to that already solicited, to insure the success of the park venture, and Rotarians will help in interviewing donors that have not already been seen.

Each member of the club was supplied with a list of prospective contributors and they will begin their work immediately. The meeting was held at the park with the idea of giving the club members an insight into the progress of the work in the park and that which has been planned.

## MARINES LANDED TO PROTECT COLLEGE

Canton, June 11—American marines have been landed to protect the Canton Christian College.

Fighting between the Yunnanese and Cantonese troops for possession of the city is continuing unabated.

Mrs. F. A. Crampton who was wounded earlier in the week is the wife of the superintendent of the Canton Christian College and was crossing from Pusan to Shanghai, with her husband and Mr. and Mrs. Montgomery Ogden when the bullet struck her in the elbow.

## MAG MILLAN PLANES ARRIVE AT BOSTON

Boston, June 11—Amphibian airplane A-3, of Donald B. MacMillan's Arctic squadron today continued the last leg of the flight from Philadelphia to Boston by flying to this city from Sagamore, at the head of Cape Cod canal.

Two other MacMillan planes, the NA-1 and the NA-2, swept up the coast without mishap.

NA-3, flown by Chief Aviator Pilot Floyd Bennett, was forced down by a heavy storm off Cape Cod.

Mrs. Minnie Sachs, Main and Collier Street, is in Pittsburgh, Pa., where she was called by the illness of a relative. Mrs. Sapir, and two grandchildren of Cincinnati are at the Sachs' home during her absence.

Miss Helen Jones, daughter of Mr. D. O. Jones, Trebein, underwent a tonsilectomy operation at the hospital of Drs. Madden and Shields, Wednesday.

**30c For Paint  
70c for labor  
putting it on**

That's how it averages up on most jobs. Two-and-one-half times as much for the labor as for the paint. So why risk your entire investment by yielding to the temptation to save a few cents per gallon on the paint you buy?

Good paint is always the cheapest.

Use Valdura Asphalt Paint and you will be certain of a satisfactory job.

**Valdura Asphalt Paint**

is better than most mineral paints because it is made of one of the rarest minerals known — genuine 99.5% pure Gilsonite natural asphalt—this makes an absolutely waterproof preservative paint which possesses great durability. Valdura is also highly acid and alkali resisting. Can be used anywhere, indoors or outdoors, underground or above ground, and will always give perfect protection.

Valdura is made a glossy Black and rich, deep shades of Red, Brown and Green. It is put up in convenient sized containers from 1-4 gallon up; is all ready for use and can be applied by anyone. First cost is low and based upon cost-per-year-of service, it is cheaper than any other paint made.

## Speaking of Eyebrows

When one is in a business where the range of interest trips lightly from the serious business of supplying fishermen with proper tackle and bait to the frivolity of supplying the bride with a cookstove on which to cook "the husband" a square meal, I'd say it's a mighty interesting game.

In and amongst this wide gamut are such things as paint, pocket knives, roofing, saws, enamel ware, not to mention rope, mops and garden rakes. Figger too that us folks here in the store have to have more than just a sketchy knowledge of each of these items and that unless we DID have you'd think we didn't know our business. Then go ahead and figger that we carry over 14,000 DIFFERENT items and maybe you'll get an idea of how smart we are!!! Why there's over 55 breeds of nails—one thing!!!

Every so often we get to moralizin' about the hardware business and ever so often we aim to get some of our ideas printed here in the paper so that you folks won't accuse us of keeping any secrets from you.

MACK.

## Motor Cars!

**A Duet By The Sutton Twins  
Verne and Harry**

The time is coming when the Uplift will make it a crime to own an automobile! The signs all point in that direction! There'll come a time when we'll have Auto Bootleggers who will sneak up to our doors in darkest night and whisper "Cumon out, I'll take you a spin down to Cincinnati—two-hour trip—get you back for breakfast—\$50 is all it'll cost—hurry. Gary is on tonite."

To smell of gasoline will then be as opulent as it is to smell of bourbon today! A grease gun or a spare tire found on your premises will be sufficient cause for a Garage Smeller to report you to the Auto Suppression Society! To let a road map fall out of your pocket will bring the blush of pity to all within eye shot! The name of Studebaker, Willys and Knight will, in the history books, range alongside of Cap Kidd, while Henry Ford's will be a hissing (appropriate-what?)

And daily you will see whole airship loads of pioneers leaving the earth for Mars!

All the signs point that way!

Verne and Harry—Prophets.

P. S.—In the meantime lets all cram as much autoing as possible into our lives so at least we can have the wonderfully sweet memories of the time when a dry throated nation wore its pants and its automobile with equal regularity—every day!!

## FISHERMEN ONLY WIMMIN KEEP OUT

We carry everything for fisher men except plug tobacco and hip flasks! Minnow buckets where the "last moments" of minnows are happily and proudly spent, tackle, lines and reels that make you breathe a bit deeper while the cane, bamboo and steel rods make the ole palms itch for a swipe across the crick! All prices for all purposes.

## SCREENS VS. FLIES —GAME CALLED!

The Battle's On. We are doing all we can to whip Kaiser Fly by bringing to your attention Reynolds Red Edge Screen Wire. Find out from one of your own flies which they like the better—black or aluminum finish. We have both—proper prices too.

Shorty Says:—

Mack says to me yesterday: "Shorty, hop out there on the floor and sell some of those fishin' tackle—fish are bitin' and there's plenty of bait for the diggin', so hop to it."

I figgered awhile and I saw Mack didn't like the way I'd been sitting around lately, so I picks me out a couple of poles and a line or two and stands out in front waiting for a customer to show up.

I happens to look down in the gutter thinking that mebbe someone had dropped a long one or sumpin and there was a FISHIN' WORM!!

So I accompanied the worm out to the crick and me and him sure had one swell time. I HAVE seen worms that were harder working than this one, but NEVER have I met a worm more friendly and accomodatin'.

Probably peeve Mack trying out his tackle this way but I want to be sure that's good stuff before I try selling any of it. Caution, me boy, caution!!

### "NOT POSSIBLE TO CLASSIFY" BY MACK SAUER

"MILLIONS NOW LIVING WILL NEVER DIE"

Of churches I've seen a number, I cannot count them all; I've seen them built with lumber, I've seen them concrete tall. But what to me is striking, no matter what's your liking, no difference where you're hiking, of hell they all do squall.

"There'll surely be weeping and wailing," the Methodists fairly shout to cheer you while you're ailing and aching with the gout. The Baptists are persistent, the Christians not far distant, and the Brethren an able assistant of hell to you to spout.

I've heard them rave about it, I'm tired of all their brew I've come to where I doubt it; with all of them I'm through. I'm tired of their complaining, their lungs they've long been straining, and not a thing they're gaining by their pretty howdydo.

The church that's now in fashion, that's first in line today--says men will stop off croaking and go to bailing hay; there'll be no more of sighing, the preachers have been lying, and causing uncalled for sighing--things were not meant that way.

So no longer am I weary, no longer am I blue, I think of old Lake Erie and of 1932, when there'll be no tears to sever, when whiskers will grow forever, and men will live wherever they can make their own home brew.

BANK TAXES SHOW BIG GAIN THIS YEAR

Ten Greene County banks have made their 1925 tax returns, according to County Auditor R. O. Wead, amounting to \$1,103,160, an increase of approximately \$25,000 over the 1924 bank returns.

This total represents the property value and does not include deposits which are listed by the individual tax payer but comprises capital stock, undivided profits and surplus. It is generally conceded among taxing authorities that banks make a fairer tax return each year than any other corporation, since many notes which must be listed have little or no money value.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

MICHAEL'S MARRIAGE

By MICHAEL

CHAPTER LXVI.

"I won't tell Lilah that you tried to vamp a film star," Aunt Mary laughed, as they were driving home in the dusk.

Michael, reddening slightly, grinned. "I think she is an awfully interesting girl. She's divinely beautiful, as a type, but she doesn't appear to be a person of any education or breeding. Her grammar is atrocious. I suppose she is a waitress made over night into a movie star?"

She slapped him on the shoulder. "There now, don't play innocent. I'll bet you didn't tell her you were out here on a honeymoon."

"No, I didn't," he responded seriously. Then he laughed. "She didn't ask me if I was out here on a honeymoon. She just asked me if I was out here for pleasure, and I told her yes."

Aunt Mary laughed. "That's it, have a good time. Besides, out here, it doesn't matter whether you're married."

"Ah, I'll bet your husband had to keep an eye on you!"

"No, he didn't," she responded. "I was the most sedate woman in Cincinnati; but that was before I learned how to live."

Michael, in a thoughtful mood at the moment, decided there was something tragically ludicrous about this fat old woman endeavoring to be happy by cutting up like an adolescent flapper. He wondered if she didn't, in private, suffer from headache sometimes.

They found Lilah in the garden, reading. "The headache is most gone," she smiled, "but I doubt whether it would be wise for me to go to the dance this evening."

Aunt Mary snorted. "You'll feel better after you take a ride in the cool night breeze. Besides,

this is something you mustn't miss."

Lilah looked at Michael and decided not to disappoint him.

The dance, labeled a ball and sponsored in the interests of sweet charity—there's a benefit of some kind every day in Hollywood—was being given at a country club. The crowd was crushing. Aunt Mary pushed them about, introducing them as "my children," until the music began after an intermission; then she danced off with a hefty individual she affectionately called "Sammy."

A young man whose name Michael understood as Gluck or Book glided away with Lilah, and Michael found himself alone. He looked around, hoping to sight one of the girls Aunt Mary had introduced them to, but he saw only a sea of strange faces.

He retreated to the veranda and smoked a cigarette, feeling uncomfortable, as he imagined himself an intruder, with couples sitting in the shadows all about him, speaking softly. After what seemed to be a hour we went back into the ballroom and sought to place Lilah and her partner.

When his eyes found them, he was annoyed by the manner in which they were dancing. Lilah—dancing cheek-to-cheek! What did she mean! Why — His anger flamed.

When the music ceased he tried to force his way towards her. An encore defeated him and he had to fume, a wall-flower, until it ended. Again he tried to reach Lilah. She disappeared from his sight.

Then he went to the nook where refreshments were being served. He didn't know it, but he just missed them. Again he searched the ballroom.

New Treatment For Varicose Veins and Ulcers

Swollen veins are dangerous and often burst. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength), at Sohn's Drug Store, Sayre & Hemphill's and start to reduce the veins and bunched at once.

Physicians recommend Emerald Oil; it is used in hospital practice and a small bottle will last a long time because it is very concentrated and a little goes a long way. Apply night and morning with a soft brush as directed until the swelling is reduced to normal.

So marvelously powerful is Emerald Oil that swollen glands and even goitre disappear when used steadily.

Says Greatest Rheumatic Medicine In All The World

Hundreds of Bottles Being Sold Declares H. C. Sohn Who Guarantees It and Is Dispensing It To Many Sufferers In This Vicinity

"It does not matter to me whether you are disabled with cursed rheumatism or have only occasional twinges," says James H. Allen, of 26 Forbes St., Rochester, N. Y. "I know that Allenhu, my own discovery, will stop the agony, do away with the gnawing pains and reduce the swollen joints."

"I know it will dissolve the uric acid deposits that have become deeply imbedded in joints and muscles and quickly drive every trace of rheumatism from your body. I know this because I was crippled for years and many times was unable to work, and Allenhu made a well, robust, healthy man of me."

"I know because since I cured myself, hundreds have taken Allenhu and speedily rid themselves of this agonizing disease."

Allenhu is no laggard; it starts right in at once; it gets into the blood, searches out the poisonous uric acid deposit and in two days starts to drive the concentrated impurities that cause rheumatism, out

of the body through the natural channels.

"The blessed relief this marvelous prescription quickly gives has made for it thousands of friends," says Sohn's Drug Store, who has been appointed agent in your city. It is Mr. Allen's own discovery. If you live out of town ask him to send you full particulars.

## FIRE MAKES 500 HOMELESS IN NAHANT, MASS.

SEVERAL INJURED,  
DAMAGE \$400,000  
IN SEASIDE COLONY

Troops Aid Firemen From  
Other Cities to Fight  
Blaze

Nahant, Mass., June 11.—Five hundred men, women and children homeless, forty permanent houses and summer cottages destroyed, several injured and property amounting to at least \$400,000 ruined, was the toll taken by a disastrous fire which raged for more than four hours, sweeping the Bass Point section of the peninsula seaside town today.

Before the fire was under control firemen from Nahant, Lynn, Swampscott, Salem, Revere, Chelsea, Peabody, a fireboat from Boston and United States troops and coast-guardsmen battled the flames.

Fire brands swept up the coast toward "White Court" at Little's Point, Swampscott, summer white house of President Coolidge, but no damage was done there.

A strong wind, blowing from the northwest, carried the flame with lightning-like rapidity through the Bass Point section. A call was immediately sent to the Red Cross and Salvation Army and a detail was rushed to aid the stricken area. The telephone lines over the peninsula from Lynn to Nahant, went out of commission, except for a single line and thousands of automobiles clogged the Lynn Beach boulevard, hampering the work of out of town firemen in getting to the scene.

The arrival of a fire boat from Boston, which made fast at Fort Gardner and played five streams of high pressure in various points prevented what undoubtedly would have been extermination of the whole of this town.

Among the homes destroyed were those of Mrs. Matty Baldwin, widow of the pugilist and Eugene Bryan, proprietor of the relay house.

Many residents were slightly injured in fighting the flames.

### SHOOTING ACCIDENT ATHLETE SAYS NOW IN DEATH OF GIRL

Gun Explodes During Struggle  
Mills Says In First Coherent  
Story

Wellesley, Mass., June 11.—Sterling Mills, 18 year old Wellesley High School athlete, in Newton Hospital today, for the first time told a coherent story of how his 15 year old schoolgirl sweetheart, Priscilla Amidon, was shot to death in Glen Road woods Tuesday afternoon and how he received two bullet wounds.

In the presence of the district attorney, Winfield Wilbur of Norfolk County, State Detective Michael Fleming and others, Mills is understood to have said that "in a struggle the gun went off," causing his own injuries and the girl's death. The high school football star's statements are said by the authorities not to coincide with those given earlier by Mills.

Struggling into the woods with the girl after school, Mills said Priscilla pleaded with him not to leave her when he said he was going to Natick to work on a farm. He said Priscilla drew a revolver and threatened to kill herself. He said he then grappled with Miss Amidon and the revolver was discharged.

### VIOLATIONS OF ANTI-NARCOTIC ACT ARE INCREASING WAYNES DECLARES IN REPORT

Washington, June 11.—Drug addicts in the United States number from 110,000 to 150,000, prohibition Commissioner Roy A. Haynes, declared in an official statement today.

Violations of the Harrison anti-narcotic act, the report showed, are increasing, 3,364 persons having been tried in 1922 and 4,837 from July 1, 1924 to June 1, 1925. Convictions rose from 93 per cent in 1922 to 95 per cent in 1925, according to Haynes.

Haynes, describing his four years as prohibition commissioner, said that the "big bootleg operator," is making his "last stand."

"Successful enforcement of the prohibition law is closing one source of illicit liquor after the other," Haynes said. Real whiskey, wine or brandy are low practically unobtainable for beverage use.

Moonshining is less general. Home brewed beer has disappeared. Liquor smuggling has been reduced.

Strides in enforcement during the last four years are remarkable, considering the obstacles to be overcome in various localities there is still strong opposition. Local assistance

Former Discount Head Faces  
Second Case—Will Go To  
Delaware Saturday

Cleveland, O., June 11.—Josiah Kirby founder and former head of the Cleveland Discount Company goes on trial today before Judge Fred H. Wolf of Vauxhall, on a charge of grand larceny.

Kirby a few months ago, was acquitted of other charges growing out of the failure of the big mortgage concern.

The case will be prosecuted by special assistants to the attorney general, who conducted a probe of the collapse of the concern three years ago.

On Saturday, Kirby and his attorneys and representatives of the state will go to Delaware where indictments were returned against him recently. It was considered doubtful when court convened this morning whether a jury would be secured this week because of the great interest in the case.

The Cleveland Discount Company went into the hands of receivers after rumors had become general in financial circles that bad loans had impaired its assets. A special master appointed by Judge D. C. Weston, head of the federal district court found that the concern was not bankrupt.

### ACT DISCRIMINATORY OFFICIAL DECLARES

#### PRODUCES WASTEFUL TAXATION WINSTON STATES IN ADDRESS

Law Economically Unsound  
He Says—Advocates  
Revision

Washington, June 11.—Describing the revenue act of 1924 as discriminatory, productive of wasteful taxation and economically unsound, Under Secretary of the Treasury Garrard B. Winston today advocated complete revision of the nation's tax system.

Winston's observations and recommendations made in an address before the convention of the National Association of Credit men, were understood to have approval of his chief, Secretary of the Treasury Mellon.

"No system of taxation which forces business into tortuous and unnatural channels can continue as a permanent policy of this country," Winston said. "We want a highway of taxation which makes it cheaper and quicker for the business man to go straight through to success, rather than take the long way around in the effort to avoid the government's toll of excessive taxes."

"We have become the greatest nation in the world only because we have given energy and ability free play; any system of taxation which discourages initiative and penalizes success cannot be the right policy for America."

Winston pleaded for repeal of federal inheritance tax. He said that the economically unsound basis of surtaxes is responsible for a vast loss to accumulated wealth.

Repeatedly congress has refused to reach the abuse of tax exempt securities, according to Winston. "Today there are in existence over \$13,000,000,000 of tax exempt securities. Before a constitutional amendment could be made effective the amount would be over \$15,000,000,000," Winston said.

It would take a long time to whittle down such a block of securities by their payment at maturity.

Under our complicated dual government the means of tax avoidance available to the rich are so many that to try to close them all by statute would simply put business in a straight jacket and render it unable to move.

"We encourage, by our excessive income tax rates, unproductive investment of capital and discourage business. Under these rates industry cannot function normally; excessive rates cost the taxpayer two dollars; the government gets one and the other is thrown away."

Winston said that it is not the total amount of taxation which is objectionable but the effect of unscientifically applied rates. An inventor, he pointed out, is not interested in risking his money and energy in a new enterprise, where if he wins the government appropriates half of his winnings and if he loses he stands the whole of the loss.

"If, however, we cut down these tax rates to a reasonable figure, the high differential of a tax exempt over a taxable investment is brought within proper limits and funds seek normal investment," Winston declared.

### WHEAT CROP WILL BE SHORTEST SINCE '17

Washington, June 11.—Although the wheat crop this year will be the shortest one since 1917 and will aggregate only about 661,000,000 bushels, it will be ample to meet domestic requirements, department of agriculture officials say. The smallness of the crop indicates there will be little or no wheat for export from this year's crop.

Reports to the department show that in a large proportion of the wheat belt, winter wheat has short straw and short heads. The hessian fly is considerably in evidence in parts of Illinois, Missouri, Nebraska and Kansas and Chinch bugs are doing some damage in Missouri. Although cold weather has injured spring wheat somewhat, the reports are that no serious damage has been done. On the other hand, crop experts here say, weather condition and the heat wave have favored a sturdy growth and hardness of plant.

### PREDICT WARFARE OR EARLY RESUMPTION IN SOFT COAL FIELDS

Expect Climax In Ten Days—  
Miners May Return At  
Lower Wages

Athens, O., June 11.—Spurred on by the inability of merchants to extend further credit to striking miners, developments in the shut down of the soft coal industry in the Hocking and Pomeroy Bend fields are rapidly moving to a climax which will result either in bitter warfare or a very early general resumption of production. This climax is expected within the next ten days by persons in close touch with the situation.

The push which may send the great majority of miners still here back to work, very likely at lower wages than the schedules of the existing Jacksonville agreement, is the apparent rapid re-opening of mines in the Pomeroy field where the first insurgency in the ranks of the union miners developed a month ago.

A close check shows that nearly 700 per cent of the miners in that field are working. Miners admit that 500 of the 1,800 miners in the field are again working, some of them at the \$5 a day scale, and the remainder on the 60-40 co-operative basis.

It was to stop the spread of this dissatisfaction to the 10,000 ideal miners of the richer Hocking field that the demonstrations were staged here and at Pomeroy Wednesday, with John L. Lewis, union chief Lee Hall, Columbus, district president and local union leaders exhorting the men to stand firm. A general reduction in wages throughout the soft coal industry was declared certain if a break develops here.

There have been no breaks in the ranks of miners in the Hocking field as yet, but some development is certain, it is believed here as merchants, their books filled with tens of thousands of dollars of accounts, have shut down credit and hung out the "red" sign. Some merchants said they cannot see their way as many miners would require the savings of several years to pay up the accounts, which have been piling up while they were idle. Other merchants are reported to have as high as \$50,000 in miners accounts on their books.

Business men who were scathingly flayed by local mine leaders at the meeting, Wednesday for alleged indifference as third parties in the strike, said today that their attitude had been misunderstood. They said they do not advocate reduction in wages, but are simply seeking some way in which work may be resumed in the field and prosperity restored to their books.

### "PUSSYFOOT" HAS NEW PHILOSOPHY

Kansas City, Mo., June 11.—A reformed William E. "Pussyfoot" Johnson, bringing with him new tenets of individualism, drifted into Kansas City, today and deposed to gaping newspaper men that a man has as much right to drink liquor as he has to eat food which might be distasteful to others.

Johnson declared that, after all his years of battling for this and that, he had decided that men and women will, after all is said and done, do about as they please and he admitted that this was as it should be.

"Let them do it," he said, magnanimously. "They are living their own lives, not mine."

### KNIGHT SCORES RAVAGES OF OFFICIALS ON RIGHTS OF CITIZENS IN ADDRESS

#### DECLARES COUNTRY DEBAUCHED BY FALSE GOVERNMENT POWERS

Cites Ohio Bible Bill And  
Anti-Evolution Act As  
Examples

Springfield, O., June 11. Declaring that officialdom has debauched the country into false ideas of governmental powers, former Congressman Charles L. Knight, Akron, and Springfield newspaper publisher, addressing the graduating class at Wittenberg college here today, urged his hearers to dedicate their lives to correcting false standards of life.

Asserting that "there appears to be no limit to, or remedy for, the average of officialdom upon the natural rights of the citizen," Knight directed attention to the recent enactments by the Ohio legislature of the bill, voted by Governor Donahoe, providing for Bible reading in public schools and by the Tennessee legislature prohibiting the teaching of evolution in the public schools of that state.

"Professing a wisdom and virtue that it never had, officialdom no longer hesitates to array itself in the ermine and stand forth as the court of last resort on all questions of learning, good taste and sound morals," said Knight. "In fact, this country is about to witness a trial which, I believe, is without a parallel since Bruno was burned at the stake for his irregularities about astronomy. In other words great scientists are about to be called from the tobacco fields and the blacksmith shops, the garages and the cigar stores of east Tennessee empaneled as a jury to decide the truth or falsity of evolution."

"After that decision, Darwin, Haeckle, Tyndall and Huxley will all have lived in vain and the author of the law and the chief counsel for the carpenter theory of the universe are to seek the serene where, presumably, they hope to refute the aspirations which, they seem to think, have been cast upon their own origin."

"After this, we need not despair that, some day, we may elect an eminent scientist governor of Ohio, who has discovered and has been sustained by the verdict of a jury, in the pleasing theory founded upon the scriptures that the world has four corners and is perfectly flat."

"Such a consummation may not be very far away, if we may take as significant the great comic political religious controversy which recently arose in our general assembly and which was designed to secure the inalienable right that we have always had to read the Bible in every school that desires it. Other symptoms, too, are not wanting that officialdom has just started upon its conquering career of injecting our systems full of the Divine grace of religious and moral reform through the legislative syringe."

"Indeed the great idea possesses so many advantages to officialdom of accrued power and increased papsuckers that it is inconceivable the thing will stop until it becomes so burdensome that thoughtful people will be, at last, compelled either to end it or, else, become the helpless wards of the state."

Knight warned against accumulation of wealth for the sole purpose of possession. He said amassing of material wealth is a worthy ambition only when it enables the possessor to aid and promote those persons, or agencies, striving to create a more enlightened citizenship "that shall recognize its duties and responsibilities to the world."

### UNIONS OBJECT

Berlin, June 11.—Socialist trade unions at Essen, one of Germany's chief industrial cities, today urged the central committee of the unions to enter a protest with the allies against the disarmament note, especially against the destruction of machinery which would, the unions declared, cause additional unemployment and misery.

#### SEARCH FOR HEIRS

Bucyrus, June 11.—Three years are given Albert G. Stoltz, executive of the estate of Elizabeth P. Morfoot, 92, who died here recently, to find twelve of the unknown legatees of the estate. Otherwise, the share of each person not found will revert to the Monnette Memorial Hospital fund here.

#### Values Wife

So great was the love of Wilbur Locutus, of St. Charles, Fla., for Mrs. Locutus (above) that he applied to a court and received an injunction restraining other men from making love to her. The step succeeded so well he then asked that the temporary writ be made permanent.

### MOORS FIRE ON NON COMBATANTS FROM AMBUSH, LEARNED

London, June 11.—Moorish troops in the Spanish service fired on non-combatants after establishing an ambush three miles inside the international zone near Tangier Wednesday, a delayed dispatch to the Times said today.

Sixty non-combatants were captured and five wounded women and one man were left in a river bed where the troops had been in hiding.

The Moorish troops, 2,200 in number, had been guarding the frontier. They concealed themselves in the river bed and natives who saw them hurriedly sent their wives and relatives, flocks and herds to a place of safety.

Early Wednesday a caravan of a few native men and the rest women, arrived inside the international zone, enroute to Tangiers to purchase food. When they reached the river bed, the Moors opened fire.

Paris, June 11.—With Paul Painleve, French premier and Minister of War on the ground in Morocco today, after an aerial flight from Paris to Rabat, the Spanish forces were mobilizing one hundred and thirty airplanes and hydroplanes for a concerted offensive against the Rif stronghold at Alhucemas, a fortified island which the Rifis captured recently.

### RETAIL FOOD COST CONTINUES TO MOUNT; INCREASE SINCE 1913 IS 38 TO 59 PER CENT

Washington, June 11.—The retail cost of food continues to increase in most parts of the United States, according to the department of Labor.

In twenty representative cities the upward trend ranged from three to thirteen percent during the year ending May 5.

Salt Lake City had the biggest percentage of increase.

The percentage increase in other cities included in the report was: Huston, two percent; Memphis and Mobile, nine percent; Atlanta, Cleveland, Minneapolis and Washington 8 percent; Charleston, S. C., Denver and Los Angeles 7 percent; Cincinnati, Columbus, Ohio and Springfield, Illinois, six percent; Fall River, Mass., Indianapolis and New York 5 percent; Manchester and Providence, 4 percent and New Haven, Conn., three percent.

During the month ending May 5 fifteen of the twenty cities showed increases as follows: Salt Lake City, three per cent.

### PRESENT POLICY OF REPUDIATION WILL BRING RUIN HE SAYS

Yellow Springs Senator  
Airs Foreign Views  
at Minneapolis

Minneapolis, Minn., June 11.—Leading a new assault upon France for failing to pay her war debt to the United States, Senator Simeon D. Fess, Republican of Ohio, in an address here today warned the French people that their nation faces economic ruin unless the policy of "debt repudiation" is abandoned at once.

Failure of France to settle her debts, Fess declared, is the chief obstacle to the permanent rehabilitation of Europe. A continuation will destroy French credit he added, and make that nation an outcast throughout the world.

The election of General Hindenburg as president of Germany, Fess said, was an additional source of world economic unrest. This can be remedied, he added, through a statement from Hindenburg that he will oppose restoration of a German monarchy.

As Fess has been one of the administration's strongest leaders in Congress and came here direct from Washington, his speech was believed to reflect the foreign views of the Coolidge administration. It was considered significant, too, that Fess included in his address a declaration that under the leadership of President Coolidge we may have another conference to do for armies what was done by the Washington conference for the navies.

He also declared in favor of ratification of the world court protocol. On the question of the French debt, Fess said in effect that France must pay up or remain a "dishonored nation."

"The franc can only be restored," he said, "by France entering upon a sound policy of taxation as a basis for liquidation and an open and frank declaration to be immediately followed by definite steps to restore her credit, both nationally and internationally, by funding her obligations to America."

So long as she continued, a policy of uncertainty, as to her intentions, touching those most solemn obligations and so long as by her attitude she gives color to the unofficial and semi-official utterances that American loans never will be paid, just so long will she suffer a discredited and dishonored nation, whose former high standing among the nations of the earth cannot be restored.

Fess called attention to France's recent loans to Poland, Czechoslovakia and other nations as indications of her ability to pay. At the same time, he declared, the United States is staggering under heavier burdens of taxation than France, simply because of the war loans. He also condemned France's militaristic policy of maintaining an army of 700,000 men—five times larger than the American army.

"As certain as night follows day," he warned, "France will cease as an economic force in the world unless she changes this policy."

The German outlook, Fess added, is promising but President Hindenburg must set at rest the uncertainty over his possible monarchist aims.

"As it now appears, the new president will confirm, what many believe, that he represents conservatism as against radicalism and not a monarchy as against a republic," Fess said.

"If he does this, his election may prove not only wise for Germany but an advantage to the people of the world."

### HOLDS CONFERENCE

Berlin, June 11.—Nicholas Longworth, U. S. congressional leader, who has been in Berlin several days, held a long conference today with Foreign Minister Stresemann on a subject which was not made public. Longworth next will visit Paris.

# RESERVES AND TROY REDMEN TO TANGLE FOR SECOND TIME

The Reserves will attempt to even things up Sunday afternoon at Washington Park with the Troy Redmen which team they lost to last Sunday by a 2 to 1 count.

The locals have lost their last three games because of poor fielding. The opposition has scored seventeen runs and but four of these have been earned. This tells the tale why they are on the losing end. They are fielding .523 at present and hitting .229. In their last three games they have been outfielded by a wide margin.

The locals weakened themselves not a little when they let Willie McDonnell, pitcher, go. It was reported that he was a bit too high but one pitcher on a ball team is not enough as the locals will find out at some later date. In the event Cyphers has a sore arm or gets injured, who is going to pitch? Friend, catcher, was also cut loose and "Tad" Randall will no doubt take his place. Randall caught last season and is a mighty good receiver. He led the Reserves last season in hitting and there is no reason why he can not do it this campaign.

The Redmen possess a nifty nine and lived up to all advance notices about them. They have a nice infield in Kessler, first baseman, Davis at second, Valentine at short and Schaffer at third. Valentine starred last week making some nice stops and throws. He accepted thirteen chances and erred twice. They will present the same team they did last week and fans can again look for a warm argument.

# SPORTSMEN TO HOLD OUTING AT VANDALIA

A delegation of Greene County sportsmen will probably attend the annual outing and dinner of the Montgomery County Fish and Game Protective Club which will be held at the Amateur Trapshooting Association grounds at Vandalia, near Dayton, Friday, June 26. Vandalia is located at the junction of the Dixie Highway and National Road.

Contests and games are included on the program of events during the day. Quail, horsehoe and other contests will be staged. The trapshooting events will begin at 9 o'clock in the morning, daylight savings time.

# COUNTRY CLUB TO PLAY MIDDLETOWN

The Xenia Country Club will play its first inter-city club match of 1925 over the local course with the Middletown Golf Club next Wednesday afternoon. It was announced Thursday by Chalmers Murphy, chairman of the tournament committee.

So far this season, the local club has devoted its activities to matches in the Dayton District Golf Association League, of which it is a member. Twenty-five players will come to Xenia to meet a like number of local representatives. Eighteen holes of golf will be played, Nassau count. The match is scheduled to start at 1:30 o'clock when the first foursome will tee off.

Xenia played Middletown last year and a close match resulted. Dinner will be served the visiting and local golfers following the match at the club house.

# Americans Seek to Conquer Canada's Highest Peak

Allan Carpe, son of Mrs. M. K. Carpe, East Second Street, this city, is one of eleven amateur climbers, five of whom are Americans, who are attempting to climb Mount Logan, Canada's tallest peak, yet unscalped. The party went to Alaska a few weeks ago, thence down the Yukon and began the treacherous climb. A. H. MacCarthy, leader of the party, from Summit, N. J., is seen (rear) reconnoitering on the mountain with H. F. Langhart, of the Canadian Geodetic Survey, in preparation for the advance. The other photo affords a general view of the mountain, 19,850 feet high.

## Sporttime Stories

BROADCAST BY STATION  
WONES

Rogers Hornsby, captain and manager of the St. Louis Cards is leading the National League in hitting with a .411 average while Barnhart of the Pirates is second with a .393 average. Stock, Brooklyn, Bancroft of the Braves and Hawks of the Phillies are hitting over the .375 mark. Ty Cobb, manager of the Detroit Tigers is at the top of the American League with a .421 average while Wingo, left fielder on the Tiger nine, is tied with Cobb. Harry Hellman, another Tiger outfielder, is third with a .411 average.

Paul Berlenbach who won the lightweight championship from Mike McTigue stands a good chance of losing the championship just as soon as he crawls in the ring with Jack Delaney. Delaney is the lad who flattened "Punch" Sam Paul after Paul had piled up a long string of consecutive knockouts. Delaney is a dangerous puncher and a crafty man inside the ropes. He packs an awful kick in his right.

With Rubie Benton on the mound the Cincinnati Reds defeated Philadelphia making it three straight from the Phillies while the win was their sixth consecutive victory. If the Hendricks herd only had another regular hurler they would no doubt be strong pennant contenders. Rixey, Louche and Donohue have been doing most of the pitching for the Queen City tribe. Brady, Biemiller, May and Carl Mays are on the staff but are not reliable, so it seems. Mays, submarine ball tosser, has not worked a game this year. Rixey is leading pitcher with seven wins and four defeats. He has granted 101 hits in the eleven games he has worked while he has issued an average of two walks per game and fanned about three per game. Luque is second with seven wins and five defeats while Donohue is third. Hendricks has his scouts out looking for a good slabman and in the event, one can be found the Reds should do quite well but until then not much can be expected from them as three pitchers can hardly hurl a team to a pennant.

The R. A. Kelly Company baseball team is still leading the Saturday Afternoon League with five games won and one lost. The H. and A. is second with four won and two lost while the Pennsylvania is third with two won and four lost and Tilton's holds down the bottom rung with one victory and five defeats. Saturday afternoon the Kelly bunch will meet its nearest rivals for the top rung at Washington Park. The last time these two met the Cincinnati Avenue bunch nosed the present leaders out by a 5 to 4 count in a hot battle. The second placers have a chance to go into a tie for first by winning Saturday's battle and with the report that Dickie Wells will hurl for the H. and A. they will no doubt repeat. Tilton's will meet the railroaders Friday afternoon. Which ever team wins will not change the standing a bit. Tilton's has hardly a chance to win the pennant or cup but in the event they do upset the dope they may finish second, but this is not probable.

"Jap" Ritter, second baseman for the Kelly's in the Saturday afternoon loop, is leading the league with an average of .632. In the six games he has played he failed to hit but once and this was against Hod Smith. Ritter is fielding well having handled twenty-three chances without a slip which gives him an average of 1.000. Briggs, first baseman for the H. and A. is leading in fielding with a .972 average. "Piny" Owens is second with .933 while Cain is third and Merchant fourth. Merchant is the best hitter of those mentioned above while Briggs is probably the weakest as he has played in six games and got but two bingles an average of a hit to every three games.

## UNION NEIGHBORHOOD

Mrs. Ernest Sanders delightfully entertained members of the Ladies' Aid Society and their families at her home on the Union Road, Wednesday evening. A musical program was rendered, after which ice cream, cake and lemonade was served. Those who enjoyed the affair were: Mr. and Mrs. McDonald and family; Mr. and Mrs. Homer Linkhart and family; Mr. and Mrs. Merle Jones and family; Mr. and Mrs. Herman Davis; Mr. and Mrs. Fred Wheeler and family; Mr. and Mrs. Harry Robinson; Mr. and Mrs. Davis Elam; Mr. and Mrs. Wright; Mr. and Mrs. Ray Ledbetter and Donald Foster; Mr. and Mrs. Joe Ledbetter; Mr. and Mrs. Thomas Ledbetter and family; Mr. and Mrs. Bartlett and family; Mr. and Mrs. Horace Anderson and family; Mrs. Emma Laurens and daughter, Freda; the Rev. and Mrs. Walley and family; Mr. and Mrs. Willis Devoe and family; Mr. and Mrs. Charles Devoe and family; Mr. and Mrs. David Painter; Mrs. Etta Wheeler; Mrs. Frazer and son, Hanson; Mr. Thomas Conklin; Miss Mabel Ringer and Mr. and Mrs. C. E. Sanders and family.

## FOGWELL TROTTER WINS AT FINDLAY

Helen Marque, by The Marque, owned by Ed Fogwell, Osborn trainer, easily won the 2:19 trot at the Findlay, O., meet Wednesday afternoon in straight heats. The 2:19 event was the last on the day's racing card, and Helen Marque took the race, one, two, three over the Stellerene, the favorite, and a field of eleven trotters. The winner's time for the three heats was 2:34 1-4; 2:31 1-4; 2:30 1-2. A purse of \$500 went to the winner.

Fogwell's star pacer All Bingen, made an excellent showing in the 2:14 pace finishing second in a field of seven to speck Erskine's Archibald. All Bingen placed second in the first two heats but fell to fourth place in the final heat.

## LEAGUE GAME WILL BE PLAYED FRIDAY

Due to the inability of a number of players of both teams to be present Saturday, the regular day, the scheduled game between the Tilton's "33" team and the Pennsylvania Railroad in the Saturday Afternoon Industrial League, will be played Friday night at 6 o'clock at Washington Park, instead of Saturday.

The second game between the Hooven and Allison team and the leading R. A. Kelly nine will probably be played Saturday afternoon as scheduled, it is said.

The game Saturday between the Kellys and the second place H. and A. nine should be a hummer. But one full game separates the league leaders from the second placers and a win for the latter team would result in a tie for first place.

## FINED ON CHARGE

Ollie Williams, colored, Cedarville, was fined \$15 and costs and sentenced to spend twenty days in the County Jail on a charge of operating an auto while intoxicated by Judge S. C. Wright in Probate Court Tuesday morning. Williams pleaded not guilty when arraigned but was convicted of the charge. He was arrested in Cedarville following an accident.

## GOLF MATCH WILL BE PLAYED SATURDAY

Because of the inability to stage the game Wednesday afternoon, the scheduled Dayton District Golf Association League match between the Bellefontaine Golf Club and the Xenia Country Club will be played Saturday afternoon over the local course. It is understood that the visitors have been going good in the league this season and their representatives will make opponents, worthy of Xenia's best golfers.

The four golfers who will represent Xenia in the Bellefontaine match have not yet been selected but will be announced later.

### HUSTON-ARMISTEAD NUPTIALS SOLEMNIZED

Miss Velma Huston, elder daughter of Mr. and Mrs. Ray Huston, became the bride of Mr. G. Donald Armistead, Oxford, O., in a beautiful mid-summer ceremony at the Huston home, West Third Street, Wednesday afternoon at 2 o'clock.

The service was witnessed by thirty five relatives and close friends of the couple. The Huston home was decorated in a color scheme of yellow and white, roses and Shasta daisies being combined with other bloom and greenery. An improvised altar was arranged in the living room, with palms and ferns. Tall standards of Shasta daisies were placed on either side of the altar. Strands of smilax woven over the altar and throughout the rooms completed the decorations.

Miss Florence King of Sidney, O., sang, "At Dawning," before the ceremony and Miss Irene Parrett played violin solos. The wedding march was played by Miss Gladys Shadrach. The beginning of the ceremony was marked by the entrance of little Miss Elizabeth Huston, sister of the bride, as ring bearer. Dressed in a dainty white frock, she carried the rings in Calla lilies placed in a small basket.

Miss Helen Evans, a close friend of the bride, was maid of honor. She wore a frock of flowered georgette, with a small tan hat with purple roses as trimming. Her flowers were yellow roses.

The bride entered with her father, who gave her in marriage. Her beauty was heightened by her bridal outfit, the dress of which was made along slim, silhouette lines. The bodice was fashioned of white crepe back satin and the skirt was banded in godet pleats in georgette, combined with white lace. Her veil of tulle was caught cap-fashion with orange blossoms and fell to the floor, forming a short train. She carried a shower bouquet of bride's roses and valley lilies, made in two parts, one of which she presented to her mother and the other to the bridegroom's mother.

The procession was met at the altar by the bridegroom and his groomsmen, Mr. Joseph Murphy, of Oxford, O., located at Niles, and the officiating minister, the Rev. F. W. Stanton, pastor of the First Methodist Episcopal Church. The double ring ceremony was solemnized.

The service was followed by the felicitations of the guests and the serving of refreshments. Ices, cakes, mints and ice tea were served. A large wedding cake was placed on a table with yellow candles in crystal holders and tied with white tulle and white flowers on either side.

Mr. and Mrs. Armistead left Wednesday afternoon for their honeymoon trip, their destination being unknown. Mrs. Armistead wore away a frock of crepe, polka-dotted and trimmed in tan lace, with a small tan hat, poke shaped, blond kid slippers, gloves, purse and other accessories to match.

The couple will spend the summer in Toledo. Mrs. Armistead attended Miami University, Oxford, after graduating from Central High School, this city, and it was at the college that the romance began. Mr. Armistead graduated from Miami last year, and is a member of Delta Tau Delta Fraternity. His bride is a member of Alpha Sigma Alpha Sorority. Mr. Armistead was supervisor of music in the New Philadelphia High School last year.

Out-of-town guests at the wedding included Mrs. Elizabeth Armistead, Oxford, mother of the bridegroom; Miss Ruth Neff, Camden, O.; Miss Cleo Sutton, Jamestown, Mr. and Mrs. Wal-Hout, Mansfield, O.; Miss Olive Huston, J. Jones, Oxford, O.; Miss Lucille Dayton; Miss Florence King, Sidney, O.; Mr. Leo Huston, Jamestown; Mr. Joseph Murphy, Niles, O.; Mr. John Sutton, Waterbury Resort; Mr. Edwin Reutinger, Columbus; Mr. Edwin Towle, Harrisburg, Ill.; Mr. Sam Watkins, New Philadelphia, O.

### DELTA THETA TAU ELECTS OFFICERS

Miss Frances Johnston was re-elected president of Alpha Theta Chapter, Delta Theta Tau Sorority, at the annual election, held at the home of Mrs. Russell Halstead, South Chestnut Street, Monday evening.

Other officers elected are: vice president, Miss Lucille Beatty; secretary, Miss Gladys Shadrach; treasurer, Miss Dorothy Johnston; sergeant at arms, Miss Ruth Smith; historian, Miss Erma Johnston; press correspondent, Miss Olivia Cost.

Miss Lena Bales and Miss Betty Reutinger are making arrangements to attend the convention at South Bend, Ind., the middle of June.

Mrs. Halstead, assisted by Miss Dorothy Hickman, served a refreshment course after the business meeting.

There are now twenty-three active members in the local chapter and four associate members. The charity work of the organization the past year has included the donation of twenty-five dollars to the Lorain Relief fund; four large baskets at Thanksgiving and four at Christmas, filled with toys and food; food and fuel supplies for a blind woman; clothing for a needy girl and twenty-five dollars to the Xenia Recreation Association.

### LUNCHEON-BRIDGE AT KELLY HOME

A gracious favor to Mrs. Sarah Harbino of Tucson, Ariz., who is visiting her daughter, Mrs. W. D. Cherry, Mrs. George R. Kelly entertained sixteen women at luncheon and bridge at her home on West Second Street, Tuesday.

Bouquets of golden-hued coreopsis were used through the rooms of the Kelly home. After the luncheon course, bridge was the entertaining feature of the remainder of the afternoon. Mrs. Charles L. Darlington, Sr., won the card prize and Mrs. Harbino was presented a guest prize.

Miss Elizabeth Lauman of Peconic Springs, Va., was another out-of-town guest.

### FRIENDS ARRANGE BIRTHDAY SURPRISE

Thirty-three neighbors of Mrs. Evelyn Pendell, Lynn Street, arranged a surprise at her home, Wednesday evening, honoring her fifty-ninth birthday. A birthday cake was cut and the evening spent in jolly social intercourse.

Mrs. Stanley Haines and baby son were removed to their home on South Detroit Street, from the Espey Hospital, Wednesday.

Mrs. J. A. Chew, East Market Street, is in Wellesley, Mass., attending the commencement exercises at Dana Hall School, when her daughter, Miss Florence B. Chew graduated.

Miss Catherine Hollencamp, this city, will attend the card party to be held Friday afternoon at the Old Barn Club, Dayton, by members of the Beta Theta Pi Sorority of Miami University.

Miss Jane Hayward, West Second Street, has returned from a visit of several days with Miss Sarah Diboll in Wilmington.

All wishing to attend the luncheon next Monday, for women of the Country Club, are asked to make their reservations not later than Friday evening with any member of the following committee: Miss Florence Steele, Mr. R. D. Adair, Mrs. Lawrence Shields, Mrs. Chester Hinkle, Mrs. Edwin Woodward and Mrs. Charles Adair.

Mr. and Mrs. Ola Wolary, Walnut Street, are announcing the birth of a twelve pound son, Wednesday morning. The baby has been named James Robert. Mrs. Wolary was before marriage, Miss Idris Slagle.

Miss Margaret Coblenz of the Upper Bellbrook Pike, spent the week end visiting in Springfield and Columbus.

Word was received by relatives Tuesday that Mrs. O. T. Coblenz, Birch Road, underwent an operation for goitre at the Grant Hospital, Columbus.

### PILGRIMS TO ROME GATHER IN XENIA

More than seventy residents of the Miami Valley and Cincinnati assembled in the Pennsylvania Railroad depot in Xenia late Wednesday afternoon, where a special train was made up and left for New York where they will sail Saturday on the steamship Leviathan on a pilgrimage to Rome and a tour through Ireland, France, England, Holland, Belgium, Germany and Italy. In all, 150 residents will make the trip.

Members of the Dayton party arrived at Xenia Wednesday afternoon on two special cars where they met Cincinnati tourists and others from the valley. Four special coaches cared for the Cincinnati tourists.

The train for New York was composed of six special coaches. The pilgrimage to Rome approved by the late Rt. Rev. Henry Moeller, archbishop of Cincinnati, is being made during Holy Year, giving pilgrims an opportunity to participate in the celebration granted with a visit to the holy city during this year. Holy Year comes once every quarter of a century.

The trip is being sponsored by

the travel department of the City National Bank of Dayton and will last two months. A second pilgrimage will be sent July 4.

### MARIAN OSTER DIES AT YELLOW SPRINGS FROM BRIEF ILLNESS

Coming as a shock to relatives and friends, the death of Miss Marian Oster, 34, daughter of Mr. and Mrs. J. A. Oster, Walnut Street, Yellow Springs, occurred Wednesday afternoon at 1:10 o'clock.

Death was the result of peritonitis, and followed a short illness. Miss Oster had resigned a clerical position in Springfield, recently, to accept the position of secretary to the vice president and bursar of University of Dayton, at Dayton. Illness prevented her taking the place the first June, and the office was left open for her recovery.

Miss Oster taught in the Yellow Springs High School for four years. She was well known in Yellow Springs and community. Her sister Miss Helen Oster and a cousin Miss Lena Oster also of Yellow Springs left Monday on the Dahl-Campbell excursion but were notified of Miss Oster's condition at Chicago. They returned home Thursday morning.

Miss Oster is survived by her parents Mr. and Mrs. J. A. Oster, two sisters, Miss Helen Oster and Miss Mildred Oster, and two brothers, Walter Oster, all at home and Kenneth Oster, who lives in Yellow Springs. She was a member of St. Paul's Catholic Church.

Solemn high mass will be solemnized Saturday morning at 9 o'clock at St. Paul's Church, with interment in St. Paul's Cemetery.

### FRED KELLY TO TALK AT ALUMNI MEETING

Between 250 and 300 alumni of Central High School are expected to

attend the annual reunion at the school, Tuesday evening, June 16.

Tickets were placed on sale Wednesday for the dinner and dance, and can be obtained at Adair's Furniture Store, North Detroit Street.

Plans for the evening's program are now in shape and many good treats are in store for the alumni. The main feature of the event will be a talk by Fred C. Kelly, graduate of "old Central" and now famous author and humorist. Music features and other talks will embellish the program.

### MODISH MITZI—Some "Extras" For The Trousseau

By JAY V. JAY

Marian has confided to Mitzi that her trousseau is all ready. Everything—except a few last minute purchases. A hat, for instance, some sort of a hat that can be worn on the steamer and thrown in her suitcase without damage. So they are shopping—and find that a soft velvet with stichery is smart.

"Of course," says Mitzi, "it doesn't have to be velvet. A crushable satin like this one would be just as suitable for your ensemble suit." This hat is trimmed with gold stichery. It can be flattened out like a pancake without losing one line of smartness.

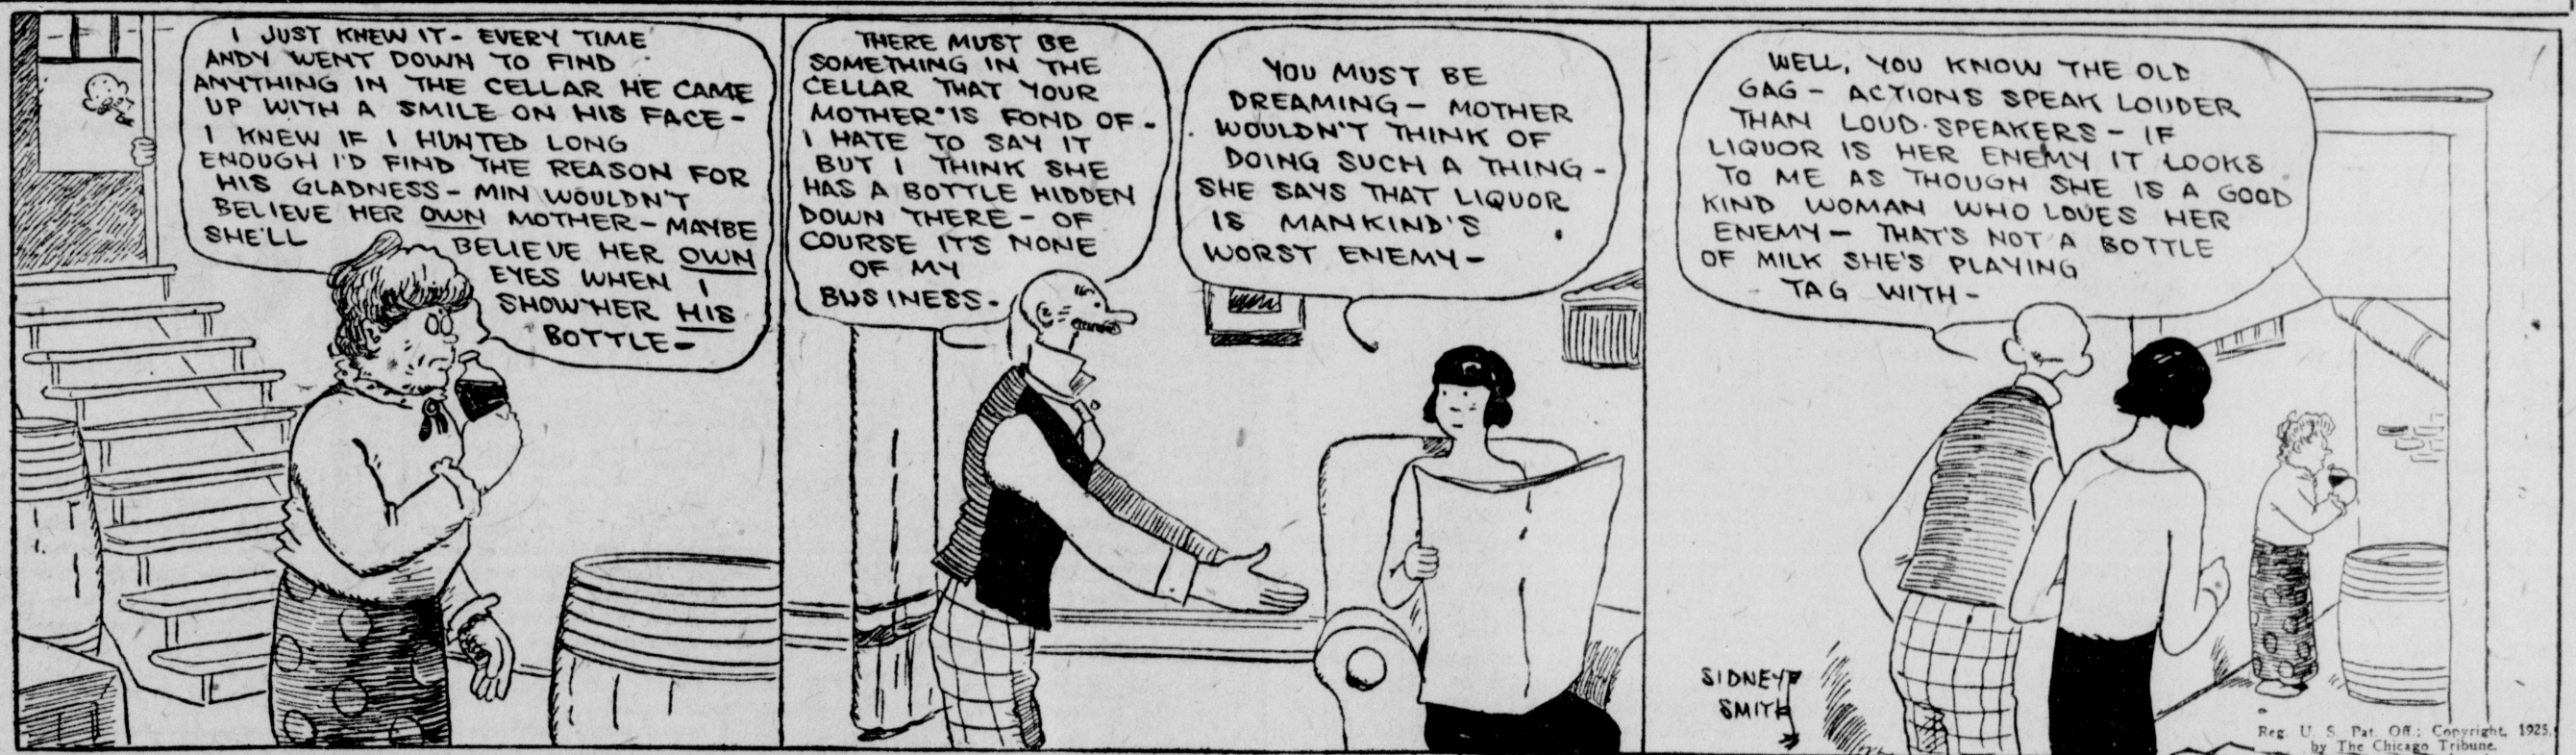

Now here is quite another sort of hat with a stock to match. It is of printed silk. It is very gay and would be most suitable with a sports suit. The colors are bright and the design is the modern ziggy type.

Contrasting colors joined together with stiching in rows and squares make this hat smart. "This is all, these four hats," Marian tells Mitzi, "positively all that I need to complete my trousseau." Mitzi is sure that it is, unless she sees something on the way out of the shop that especially recommends itself.

## TIME TO "RE-TIRE"

IT WAS in 1876 that Sir Henry Wickham germinated in Kew Gardens, London the seeds of the Hevea brasiliensis, otherwise known as Para rubber, and sent the plants to the British East Indies where they became the nursery stock of the plantation rubber trees. In 1905 those plantations produced 174 tons of rubber, while the wild rubber areas, principally those of Brazil, produced 59,000 tons.

It was about that time the automobile began to give promise of being a great factor in our economic life, and in 20 years this country was operating 18,000,000 self-propelling, rubber-shod cars. But with a lack of foresight amounting to fatuousness we made no provision for a rubber supply, and by 1924 plantation rubber had reached a production of 387,000 tons, while wild rubber had fallen to 28,000 tons.

Today the British are having their innings. Crude rubber is ranging from 60 to 70 cents a pound, New York, compared with 20 cents just a year ago, and from teething rings to tires every American user of rubber must pay tribute to British canniness, the aggregate for the ensuing year being estimated at about \$400,000,000. In short, Britain has maneuvered us into a position where out of our own pockets comes the payment of the British debt to the United States. Yankee shrewdness has had a bad fall.

The situation calls for herculean effort on our part. Within the next decade rubber may supplant oil as the star in the commercial drama which records the struggle between Great Britain and the United States for the control of the world's natural resources, a struggle which will continue so long as competition is the motivating power of human progress.

Discussing the Brazilian rubber problem in his excellent work, "Our Competitors and Markets," Lahce says:

"Brazil, for her part, cannot afford to lose the advantage of this wonderful, potential resource, especially as she has the largest consuming market of the world as a neighbor. And for us, such an opportunity is of greatest interest, since by assisting Brazil to recover her position, we should gain the advantage of having, for the supply of a material upon which we are becoming increasingly dependent, a source unhampered by any sort of control exercised by our European competitors."

Brazil is our main hope in supplying us with rubber, but to realize it will require a huge capital enterprise. Isn't it about time to re-tire?

## CREDIT FOR THE WRIGHTS

NO ONE who has brought a great invention to perfection has escaped the challenge of those who have claimed that they had made plans which would have effected the same purpose. After all, while the pioneers in any field of invention are entitled to credit, it is the man who places the perfected product at the service of humanity who is entitled to the laurel wreath.

The Smithsonian Institution has offended Orville Wright by exhibiting at Washington the plane devised by Dr. Langley, late director of the Institution, with a placard stating that Langley's was the first machine capable of flight. Since flying has become a practical science, the Langley machine was shown to be capable of flight. The fact remains, however, that it did not fly, and it was a number of years before the Wright brothers conducted their successful experiments at Kittyhawk, N. C.

Dr. Langley is entitled to the credit involved in advancing the science of aeronautics. He is not, however, the man who made an airplane fly, and there must have been some reason for this involved in the mechanism of the machine or the capacity of the inventor to make practical use of what he had developed. The effort on the part of an American institution devoted to science to discredit or minimize the work of the Ohio youths who made the airplane a going proposition, is an unworthy one.

Those who contribute to the advancement of science and the progress of the world, as the Wright brothers did, should receive the full measure of the honor due them, and first to pay that honor should be the public scientific institutions of the country. The controversy which has arisen as the result of the apparent effort of the authorities of the Smithsonian Institution to detract from the credit due two great Americans is an unfortunate one.

### DECLARING AN ULTIMATUM

I'm willing to do anything which duty may command. I'm no shirker, as a worker, at my post I'll gladly stand.

With a chuckle I will buckle to my tasks, though grim they are, But I will not sell the tickets to your annual bazaar!

I will build your booths and boxes. I'll run errands if you choose. Be your sifter or your butler pay your losses if you lose.

Meet the people, paint the steeple, there's no dismal task I bar. But I will not sell the tickets to your annual bazaar!

If a gift you want I'll give it, 'Tis a cause which I admire. I adore you and I'm for you. I'll do all that you require. Chairs I'll rustle, and I'll hustle after strangers in my car.

But I will not peddle tickets to your annual bazaar.

I'm willing to do anything which duty may command.

But the "no sir" of the grocer is a thing I couldn't stand.

I feel funny, asking money from my friends for things like that.

I am not a ticket salesman! Now I've told it to you flat!

## WAITING

## 1905-Twenty Years Ago-1925

JOHN SACKET, the west main Street plumber, was the victim of quite a painful accident on Monday afternoon while engaged at work at Wilberforce University.

The Antioch College baseball nine defeated Wilberforce University on the diamond Monday by an 8 to 3 score. However, Antioch was beaten by the O. S. and S. O. Home Saturday 8 to 7. The forty-sixth annual commencement of the Central High School senior class took place Tuesday morning at the Opera House. There were twenty-nine graduates.

Hon. Booker T. Washington made an address at Wilberforce University on Monday night which was attended by a couple thousand people.

H. L. Smith went to Springfield Tuesday to attend a meeting of the Grand Lodge of the Knights of Pythias.

This is the hour of the neckscarf. We see them embroidered, dyed in mixed colors, and painted.

To paint one at home it is not necessary to have any previous knowledge of painting. Simply buy two yards of China silk 36 inches wide and have it hemstitched down the middle and at either edge and along the bottom at either end. Cut this hemstitching down the middle, to make a piece edging all around. The piece edging is particularly popular just now, although hand hemming may be used instead, if desired.

Of course the two yards of goods, divided in exact halves lengthwise, will make two scarfs. Buy a transfer pattern and put it on with a hot iron.

The next step is to assemble the painting materials. If you have no regular artists' palette, use a large plate—either glass or china. Buy artists' oil paints in tubes, of the desired colors. These colors may be made a lighter tint by being mixed with a little white oil paint. But instead of using an oil-paint brush, use a water color paintbrush which has a finer point. Pour a little gasoline into a cup and begin the work; for

gasoline is needed to thin the oil paint.

Have the scarf-end tautly thumb-tacked to a board which is covered with white blotting paper. The blotting paper absorbs any superfluous paint, thus preventing it from spreading on the scarf. A very little experience will teach you what you may do, and may not do, to gain the proper effect. I would advise you to try painting a simple flower on a sample of the same silk before going ahead on the scarf itself.

Because you are using gasoline, you must not work near heat and flame. It is a good plan to apply one color wherever needed in the design—all over the scarf—then wash your brush in fresh gasoline and begin applying some other color in the same way. Take care not to let two different colors overlap.

I always like to see the home woman go ahead and try something new! We never know what talents we have until we have experimented do we?

## PIMPLES ITCHED ALL THE TIME

Face Disfigured, Lost Rest, Healed by Cuticura.

"I was troubled with pimples for a long time. They were large, hard and red and some of them festered. The pimples were very annoying as they not only disfigured my face but burned and itched all the time, causing me to scratch. The scratching caused eruptions and I lost my rest at night because of the irritation."

"I began using Cuticura Soap and Ointment and after using four cakes of Cuticura Soap and one and a half boxes of Cuticura Ointment I was healed." (Signed) Miss Mildred Levens, 1516 Seventh St., Rock Island, Ill., July 14, 1924.

"Cuticura Soap, Ointment and Tablets are ideal for daily toilet use. Soap 25c, Ointment 25c and Tablets 25c. Sold everywhere. Sample and full directions free. Address: Cuticura Laboratories, P.O. Box 100, Kenilworth, N.J."

## RESULTS THAT LAST

Proven by Xenia People.

Thousands of kidney sufferers have tried remedy after remedy with only temporary benefit. That's mighty discouraging! But one kid-ney remedy has earned a reputation for lasting results and there's plenty of proof right here in Xenia.

Read the experience of one who used Doan's Pills years ago and now makes her endorsement even stronger.

Mrs. David Pohl, 751 W. Second St., Xenia, says: "I suffered with lame back quite frequently, but the most annoying symptom was the irregularity of my kidneys. I felt languid and it seemed I couldn't get any rest. Doan's Pills from Donges' Drug Store cured me entirely."

OVER FOUR YEARS LATER, Mrs. Pohl said: "I have had no further occasion to use Doan's since they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Pohl had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## MRS. FULLER MADE STRONG

Lydia E. Pinkham's Vegetable Compound Helped where Other Medicines Failed

Walpole, N. H.—"I have used Lydia E. Pinkham's Vegetable Compound and find it has improved my health wonderfully. For months and months I was not regular and had terrible pains. They used to affect my side so I could not work. I read of others being helped by the Vegetable Compound, so I thought it might help me. I am very much better now, strong enough to do my own housework, and have two dear babies to care for besides. I tried other medicines before taking the Vegetable Compound, but I was never treated for my troubles. I speak highly of the Vegetable Compound to my friends and recommend it to any woman for run-down and nervous condition."—Mrs. T. H. FULLER, Walpole, New Hampshire.

Over 200,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

98 out of every 100 of the replies say, "Yes" and because the Vegetable Compound has been helping other women it should help you. For sale by druggists everywhere.

## Today's Talks

### ANTICIPATION

The aimless life is, of course, the headless life—that is, no life at all. Things that we anticipate nearly always thrill us and lift us right out of our lethargy.

We should always be planning something ahead. And we should always be planning something that may take place of worn out jobs and occupations.

Worries will come. Troubles will pile up until they look like a small mountain. But if you have learned to anticipate these things and to have an antidote ready, you will pass forward and grow happier as you do it.

And then there are the happy things to look forward to. There are always happy things ahead. I find myself looking forward to the new seasons of the year for each one is full of interest and beauty. And then I look forward to the reading of new books purchased in a mood of delight. I look forward to the meeting of those with whom I love to be.

What would life be without this anticipation.

I read a most interesting book the other day by an author I was unacquainted with until a friend told me about him. Now I anticipate the reading of another book by the same writer.

But in all our anticipations we should store within our hearts much that will serve to keep and hold us when the darker and less interesting days may appear.

It is all very well to live for the moment. But all moments pass and out of the change that new conditions bring about, we have need to retire unto ourselves many times and to gain renewed strength from the things which we have treasured in days gone by.

If we have lived merely to give and not to save, there will come a time when we need to call upon our reserves—and there will be none!

I believe that one of the most valuable lessons of life is to learn to live alone.

Anticipate change.

## HUNDREDS ATTEND FORMAL OPENING OF NEW SWIMMING POOL

Braving cool atmosphere, hundreds of swimmers and spectators attended the formal opening of the new Wilson swimming pool, West Church Street, Wednesday evening.

The pool the third largest in the state was filled with swimmers and lovers of water sports. The walk around the pool and the enclosure for spectators were filled with people who came to watch the sports and attend the program in connection with the opening.

Ben Piers, former city recreation director of Dayton, who resided in Xenia several years ago and who was scheduled for an address, was unable to be present. The Rev. W. H. Tiford, pastor of the First Presbyterian Church, complimented members of The Aquatic Company and urged citizens to back the movement to keep the pool as a clean sporting place.

John W. Prugh, realtor, represented Xenia business men in a short talk. He recalled the days when Xenia boys were forced to learn to swim in a muddy pool, without the modern conveniences. He also complimented the city on possession of the fine pool.

Six expert swimmers from Dayton, representing different organizations of that city, and sent to the opening through the courtesy of Mr. Piers, gave a demonstration of swimming and diving. The exhibition was well received by the crowd.

Music during the evening was furnished by the Jones Orchestra of Xenia. Following the program the pool was given over to the local people.

## ROTARIANS TO AID PARK ASSOCIATION

Xenia Rotarians will assist the Xenia Recreation Association in a financial drive to be staged soon, to obtain funds to carry on the work in the new civic park, it was decided at a meeting of the Rotary Club, at the park, Tuesday evening.

It is planned to raise about \$1,500, in addition to that already solicited, to insure the success of the park venture, and Rotarians will help in interviewing donors that have not already been seen.

Each member of the club was supplied with a list of prospective contributors and they will begin their work immediately. The meeting was held at the park with the idea of giving the club members an insight into the progress of the work in the park and that which has been planned.

## MARINES LANDED TO PROTECT COLLEGE

Canton, June 11—American marines have been landed to protect the Canton Christian College.

Fighting between the Yunnanese and Cantonese troops for possession of the city is continuing unabated.

Mrs. F. A. Crampton who was wounded earlier in the week is the wife of the superintendent of the Canton Christian College and was crossing from Ponam to Shameen, with her husband and Mr. and Mrs. Montgomery Ogden when the bullet struck her in the elbow.

## MAG MILLAN PLANES ARRIVE AT BOSTON

Boston, June 11—Amphibian airplane A-3, of Donald B. MacMillan's Arctic squadron today continued the last leg of the flight from Philadelphia to Boston by flying to this city from Sagamore, at the head of Cape Cod canal.

Two other MacMillan planes, the NA-1 and the NA-2, swept up the coast without mishap.

NA-3, flown by Chief Aviator Pilot Floyd Bennett, was forced down by a heavy storm off Cape Cod.

Mrs. Minnie Sachs, Main and Collier Street, is in Pittsburgh, Pa., where she was called by the illness of a relative. Mrs. Sapiro, and two grandchildren of Cincinnati are at the Sachs' home during her absence.

Miss Helen Jones, daughter of Mr. D. O. Jones, Treblein, underwent a tonsillectomy operation at the hospital of Drs. Madden and Shields, Wednesday.

## 30c For Paint 70c for labor putting it on

That's how it averages up on most jobs. Two-and-one-half times as much for the labor as for the paint. So why risk your entire investment by yielding to the temptation to save a few cents per gallon on the paint you buy?

Good paint is always the cheapest. Use Valdura Asphalt Paint and you will be certain of a satisfactory job.

## Valdura Asphalt Paint

is better than most mineral paints because it is made of one of the rarest minerals known — genuine 99.5% pure Gilsonite natural asphalt—this makes an absolutely waterproof preservative paint which possesses great durability. Valdura is also highly acid and alkali resisting. Can be used anywhere, indoors or outdoors, underground or above ground, and will always give perfect protection.

Valdura is made n glossy Black and rich, deep shades of Red, Brown and Green. It is put up in convenient sized containers from 1-4 gallon up; is all ready for use and can be applied by anyone. First cost is low and based upon cost-per-year-of service, it is cheaper than any other paint made.

## C. L. Babb Hardware Store

## Speaking of Eyebrows

When one is in a business where the range of interest trips lightly from the serious business of supplying fishermen with proper tackle and bait to the frivolity of supplying the bride with a cookstove on which to cook "the husband" a square meal, I'd say it's a mighty interesting game.

In and amongst this wide gamut are such things as paint, pocket knives, roofing, saws, enamel ware, not to mention rope, mops and garden rakes. Figger too that us folks here in the store have to have more than just a sketchy knowledge of each of these items and that unless we DID have you'd think we didn't know our business. Then go ahead and figger that we carry over 14,000 DIFFERENT items and maybe you'll get an idea of how smart we are!! Why there's over 55 breeds of nails—one thing!!

Every so often we get to moralizin' about the hardware business and ever so often we aim to get some of our ideas printed here in the paper so that you folks won't accuse us of keeping any secrets from you.

MACK.

## Motor Cars! A Duet By The Sutton Twins Verne and Harry

The time is coming when the Uplift will make it a crime to own an automobile! The signs all point in that direction! There'll come a time when we'll have Auto Bootleggers who will sneak up to our doors in darkest night and whisper "Cumon out, I'll take you a spin down to Cincinnati—two-hour trip—get you back for breakfast—\$50 is all it'll cost—hurry, Gary is on tonite."

To smell of gasoline will then be as opulent as it is to smell of bourbon today! A grease gun or a spare tire found on your premises will be sufficient cause for a Garage Smeller to report you to the Auto Suppression Society! To let a road map fall out of your pocket will bring the blush of pity to all within eye shot! The name of Studebaker, Willys and Knight will, in the history books, range alongside of Cap Kidd, while Henry Ford's will be a hissing (appropriate-what?)

And daily you will see whole airship loads of pioneers leaving the earth for Mars!

All the signs point that way!

Verne and Harry—Prophets.

P. S.—In the meantime lets all cram as much autoing as possible into our lives so at least we can have the wonderfully sweet memories of the time when a dry throated nation wore its pants and its automobile with equal regularity—every day!!

## FISHERMEN ONLY WIMMIN KEEP OUT

We carry everything for fisher men except plug tobacco and hip flasks! Minnow buckets where the last moments of minnows are happily and proudly spent, tackle, lines and reels that make you breathe a bit deeper while the cane, bamboo and steel rods make the ole palms itch for a swipe across the crick! All prices for all purposes.

## SAWIN' AN' CUTTIN'

Diamond edge saws and pocket knives make the business of sawin' and cuttin' a real pleas-

ure. To feel the "bite" of a sharp tool in the tuft wood, feel it slip through like it thoroughly enjoyed its task is a pleasure enjoyed always by owners of Diamond Edge Tools. All prices.

## SCREENS VS. FLIES —GAME CALLED!—

The Battle's On. We are doing all we can to whip Kaiser Fly by bringing to your attention Reynolds Red Edge Screen Wire. Find out from one of your own flies which they like the better—black or aluminum finish. We have both—proper prices too.

*Shorty Says:—*

Mack says to me yesterday: "Shorty, hop out there on the floor and sell some of those fishin' tackle—fish are bitin' and there's plenty of bait for the diggin', so hop to it."

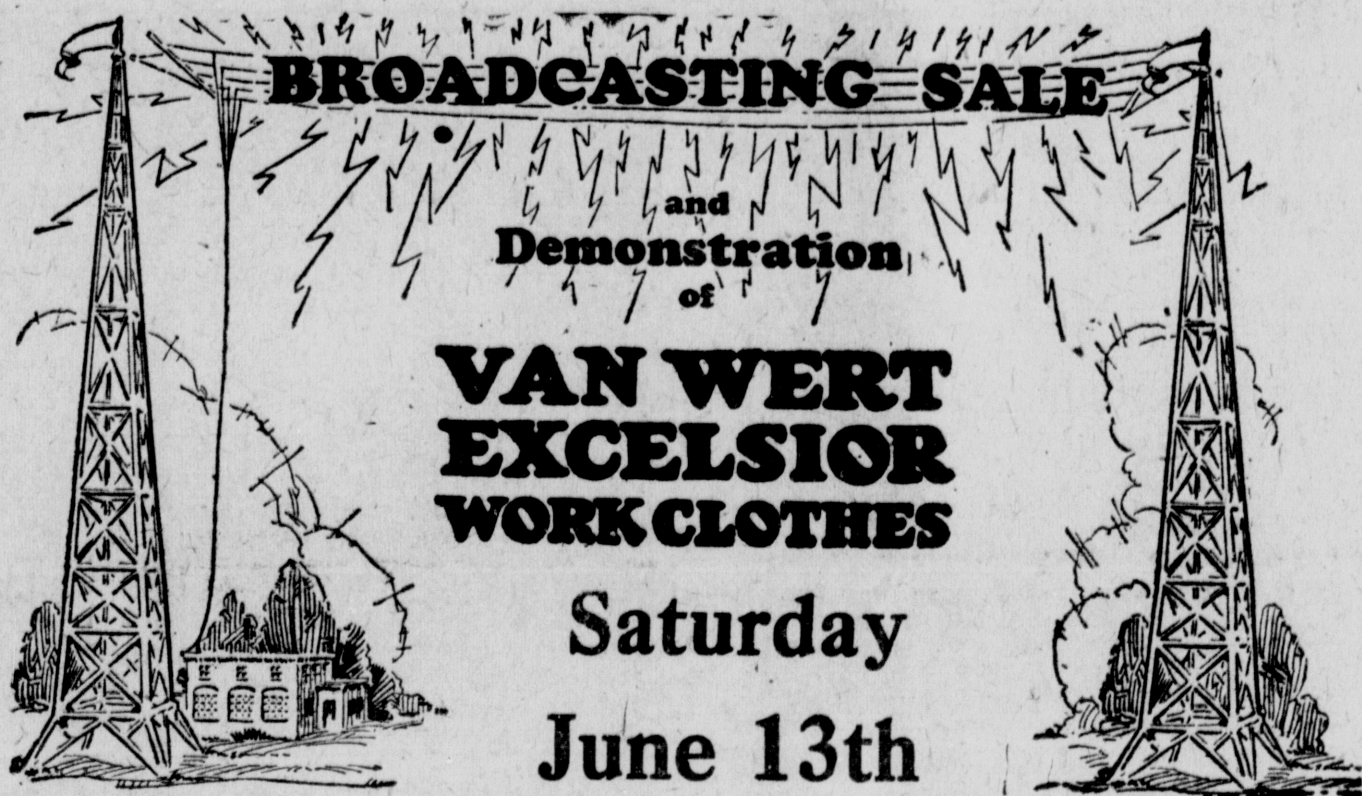

I figgered awhile and I saw Mack didn't like the way I'd been sitting around lately, so I picks me out a couple of poles and a line or two and stands out in front waiting for a customer to show up.

I happens to look down in the gutter thinking that mebbe someone had dropped a long one or sumpin and there was a FISHIN' WORM!!

So I accompanied the worm out to the crick and me and him sure had one swell time. I HAVE seen worms that were harder working than this one, but NEVER have I met a worm more friendly and accomodatin'.

Probably peeve Mack trying out his tackle this way but I want to be sure that's good stuff before I try selling any of it. Caution, me boy, caution!!

## GLORY OF TWO GREAT HITTERS

Doomed to Be Dimmed by Two Rivals Still in Game

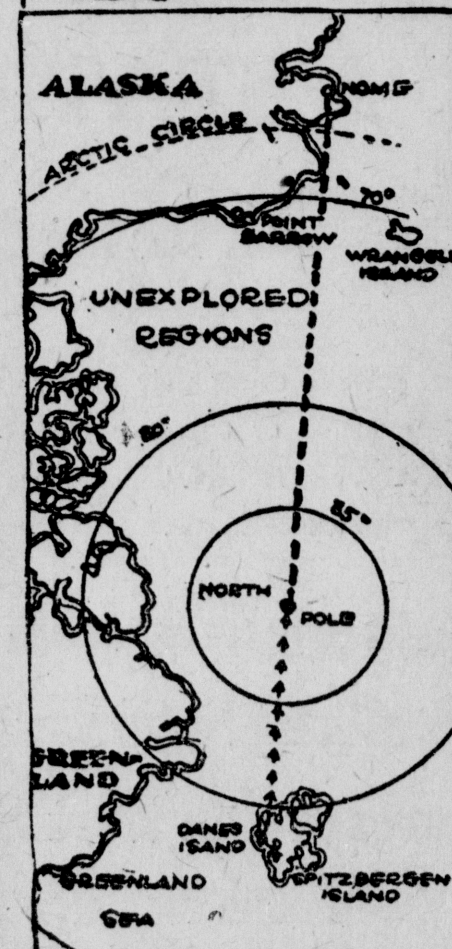

Only five men in the history of the big leagues had collected 3,000 hits until Tris Speaker rang up his 3000th the other day. The five were Ty Cobb, Pop Anson, Nap Lajoie, Hans Wagner and Sam Crawford. Speaker, batting away mishaps, will pass Crawford's total of 3,051 hits this summer and, if he plays part of next season, can pass Lajoie's total of 3,222. Eddie Collins is but a few hits behind Speaker.

## GAS BUGGIES—It's Enough To Discourage Any Woman

## "NOT POSSIBLE TO CLASSIFY" BY MACK SAUER

"MILLIONS NOW LIVING WILL NEVER DIE"

Of churches I've seen a number, I cannot count them all; I've seen them built with lumber, I've seen them concrete tall. But what to me is striking, no matter what your liking, no difference where you're hiking, of hell they all do squall.

"There'll surely be weeping and wailing," the Methodists fairly shout to cheer you while you're ailing and aching with the gout. The Baptists are persistent, the Christians not far distant, and the Brethren an able assistant of hell to you to spout.

I've heard them rave about it, I'm tired of all their brew I've come to where I doubt it; with all of them I'm through. I'm tired of their complaining, their lungs they've long been straining, and not a thing they're gaining by their pretty howdydo.

The church that's now in fashion, that's first in line today—says men will stop off croaking and go to baling hay; there'll be no more of sighing, the preachers have been lying, and causing uncalled for sighing—things were not meant that way.

So no longer am I weary, no longer am I blue, I think of old Lake Erie and of 1932, when there'll be no tears to sever, when whiskers will grow forever, and men will live wherever they can make their own home brew.

A contract based upon the lowest and best bid will be executed for a period of ten (10) years, beginning July 1, 1935 and ending on the 30th day of June 1945.

Each bid must be accompanied by a certified check for \$100.00 payable to Village Clerk. The checks of the unsuccessful bidders will be returned as soon as the successful bidder has been ascertained and the check of the successful bidder will be returned as soon as the contract and undertaking are executed.

Bids should be sealed and endorsed "Bid for furnishing electric street lights."

The Council reserves the right to reject any and all bids.

By order Village Council.  
H. J. Wilson, Mayor  
J. A. Bishop, Clerk

A SHOPPING GUIDE FOR THE BARGAIN HUNTER

"NOT POSSIBLE TO CLASSIFY" BY MACK SAUER

"MILLIONS NOW LIVING WILL NEVER DIE"

Of churches I've seen a number. I cannot count them all; I've seen them built with lumber, I've seen them concrete tall. But what to me is striking, no matter what's your liking, no difference where you're hiking, of hell they all do squall.

"There'll surely be weeping and wailing," the Methodists fairly shout to cheer you while you're ailing and aching with the gout. The Baptists are persistent, the Christians not far distant, and the Brethren an able assistant of hell to you to spout.

I've heard them rave about it, I'm tired of all their brew I've come to where I doubt it; with all of them I'm through. I'm tired of their complaining, their lungs they've long been straining, and not a thing they're gaining by their pretty howdydo.

The church that's now in fashion, that's first in line today—says men will stop off croaking and go to bailing hay; there'll be no more of sighing, the preachers have been lying, and causing unneeded for sighing—things were not meant that way.

So no longer am I weary, no longer am I blue, I think of old Lake Erie and of 1932, when there'll be no tears to sever, when whiskers will grow forever, and men will live wherever they can make their own home brew.

# BANK TAXES SHOW BIG GAIN THIS YEAR

Ten Greene County banks have made their 1925 tax returns, according to County Auditor R. O. Wead, amounting to \$1,103,160, an increase of approximately \$25,000 over the 1924 bank returns.

This total represents the property value and does not include deposits which are listed by the individual tax payer but comprises capital stock, undivided profits and surplus.

It is generally conceded among taxing authorities that banks make a fairer tax return each year than any other corporation, since many notes which must be listed have little or no money value.

# PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complications and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

# MICHAEL'S MARRIAGE

By MICHAEL

**CHAPTER LXVI.**

"I won't tell Lilah that you tried to vamp a film star," Aunt Mary laughed, as they were driving home in the dusk.

Michael, reddening slightly, grinned. "I think she is an awfully interesting girl. She's divinely beautiful, as a type, but she doesn't appear to be a person of any education or breeding. Her grammar is atrocious. I suppose she is a waitress made over night into a movie star."

She slapped him on the shoulder. "There now, don't play innocent. I'll bet you didn't tell her you were out here on a honeymoon."

"No, I didn't," he responded seriously. Then he laughed: "She didn't ask me if I was out here on a honeymoon. She just asked me if I was out here for pleasure, and I told her yes."

Aunt Mary laughed. "That's it, have a good time. Besides, out here, it doesn't matter whether you're married."

"Ah, I'll bet your husband had to keep an eye on you!"

"No, he didn't," she responded. "I was the most sedate woman in Cincinnati; but that, was before I learned how to live."

Michael, in a thoughtful mood at the moment, decided there was something tragically ludicrous about this fat old woman endeavoring to be happy by cutting up like an adolescent flapper. He wondered if she didn't, in private, suffer from heartache sometimes.

They found Lilah in the garden, reading. "The headache is the most gone," she smiled, "but I doubt whether it would be wise for me to go to the dance this evening."

Aunt Mary snorted. "You'll feel better after you take a ride in the cool night breeze. Besides,

this is something you mustn't miss."

Lilah looked at Michael and decided not to disappoint him.

The dance, labeled a ball and sponsored in the interests of sweet charity—there's a benefit of some kind every day in Hollywood—was being given at a country club. The crowd was crushing. Aunt Mary pushed them about, introducing them as "my children," until the music began after an intermission; then she danced off with a hefty individual she affectionately called "Sammy." A young man whose name Michael understood as Gluck or Book glided away with Lilah, and Michael found himself alone. He looked around, hoping to sight one of the girls Aunt Mary had introduced them to, but he saw only a sea of strange faces.

He retreated to the veranda and smoked a cigarette, feeling uncomfortable, as he imagined himself an intruder, with couples sitting in the shadows all about him, speaking softly. After what seemed to be a hour he went back into the ballroom and sought to place Lilah and her partner.

When his eyes found them, he was annoyed by the manner in which they were dancing. Lilah, dancing cheek-to-cheek! What did she mean! Why — His anger flamed.

When the music ceased he tried to force his way towards her. An encore defeated him and he had to fume, a wall-flower, until it ended. Again he tried to reach Lilah. She disappeared from his sight.

Then he went to the nook where refreshments were being served. He didn't know it, but he just missed them. Again he searched the ballroom.

# New Treatment For Varicose Veins and Ulcers

Swollen veins are dangerous and often hurt. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength), at Sohn's Drug Store, Sayre & Hemphill's and start to reduce the veins and bunched at once.

Physicians recommend Emerald Oil; it is used in hospital practice and a small bottle will last a long time because it is very concentrated and a little goes a long way. Apply night and morning with a soft brush as directed until the swelling is reduced to normal.

So marvelously powerful is Emerald Oil that swollen glands and even goitre disappear when used steadily. adv

# Says Greatest Rheumatic Medicine In All The World

Hundreds of Bottles Being Sold Declares H. C. Sohn Who Guarantees It and Is Dispensing It To Many Sufferers In This Vicinity

"It does not matter to me whether you are disabled with cursed rheumatism or have only occasional twinges," says James H. Allen, of 26 Forbes St., Rochester, N. Y. "I know that Allenhu, my own discovery, will stop the agony, do away with the gnawing pains and reduce the swollen joints."

"I know it will dissolve the uric acid deposits that have become deeply imbedded in joints and muscles and quickly drive every trace of rheumatism from your body. I know this because I was crippled for years and many times was unable to work, and Allenhu made a well, robust, healthy man of me."

"I know because since I cured myself, hundreds have taken Allenhu and speedily rid themselves of this agonizing disease."

Allenhu is no laggard; it starts right at once; it gets into the blood, searches out the poisonous uric acid deposit and in two days starts to drive the concentrated impurities that cause rheumatism, out of the body through the natural channels.

"The blessed relief this marvelous prescription quickly gives has made for it thousands of friends," says Sohn's Drug Store, who has been appointed agent in your city. It is Mr. Allen's own discovery. If you live out of town ask him to send you full particulars. adv
